GROW AND ENJOY YOUR OWN FRUIT.

No fruit tastes better than that freshly harvested from your own garden or orchard. However, home freezers and public food lockers are making possible storing and enjoying fresh fruit throughout the year, extending the market and creating greater use for fruits.

PLANT NUT TREES for ornamental effect, comfortable shade, and delicious nuts. Pecan planting recommended for warmer parts of Virginia and states farther south. Hardy English Walnuts and blight-resistant Chinese Chestnuts adapted to most parts of the United States.

INCREASE THE BEAUTY AND VALUE OF YOUR REAL ESTATE with planned landscaping instead of haphazard planting. Landscaping is not limited to planting new homes, churches, schools and factories, but may be used in modernizing plantings on older property.

VISITORS WELCOME. Main Nursery 3 miles south of Waynesboro on Lyndhurst-Sherando Lake Road—open Monday through Friday 7 a. m. to 5 p. m., Saturday until noon. **Boxwood Garden Shop**, Route 250, near Afton. **Azalea Gardens**, Route 151, between Amherst and Afton, Virginia.

BOXWOOD GARDEN SHOP

Route 250, one and one-half miles east of Skyline Drive Entrance.

Featuring Evergreens, Roses, Flowering Trees, Spring Flowering Bulbs, Potted Plants—including African Violets—ready to be carried away in your car. Also offering Garden Tools, Spray Materials, Plant Food, Peat Moss, Seeds, and an attractive line of Native Handicraft, Rare Pottery and Garden Furniture. During late April and early May 75,000 Blooming Tulips and thousands of Flaming Azaleas are a special attraction.

HORTICULTURAL ADVICE AND LANDSCAPE SERVICE AVAILABLE. Do not hesitate to write us for additional information in regard to fruit varieties or landscape plantings. If you are uncertain as to material which can be used to best advantage, send us a sketch of the grounds for recommendations. Should your planting problem require professional landscape service, please apply as early as possible as our landscape department is usually booked several weeks in advance. No charge is made for information furnished by letter or to callers at our office, but a nominal charge is made for making surveys and detailed plans. Helpful information on planting and care of plant material is furnished with order acknowledgments.

OFFERING THE NEWER AND BETTER VARIETIES. We are large, established growers and in position to supply reliable and popular older varieties, also new, improved ones tested and found worth while. Assistance is available to you in selecting plant material best suited to your requirements.

DEPENDABLE PLANTS AND INFORMATION. Our plant material is healthy, vigorous and state-inspected, grown under ideal soil and climatic conditions. We endeavor to be fair in our descriptions, mentioning unfavorable as well as favorable qualities a variety may possess. You may select from us with assurance.

GARDEN SUPPLIES. Plant Foods, Spray Materials, and other Garden Supplies—see pages 24-B, C, D, E, F and G.

AZALEA GARDENS

Route 151, between Amherst and Afton, Virginia. Specializing in Azaleas, Rhododendrons, Boxwoods, Hollies and other broad-leaved plant material. Azaleas are at their best in early May.

FRUIT

AND NUT TREE DEPARTMENT

Virginia's Largest Growers

On the following pages we offer the finest strains of fruit varieties our long experience affords. For more than thirty years we have been constantly improving existing varieties and testing new introductions, making available to our customers the best money can buy.

We offer a new variety or strain only after its merits have been proven and it is considered worthy of introduction. Commercial growers are now planting chiefly Double Red Apple Strains and recent introductions in early, better quality Peaches.

The importance of growing as much home fruit as possible is being recognized, not altogether for the sake of economy, but much pleasure and satisfaction can be found in gardening and fruit raising. Fruit never tastes quite so good as when gathered from your own garden and orchards. Don't waste precious time and land by planting stock you can't be sure of. Waynesboro Nurseries can supply your needs with strains thoroughly tested by performance.

Plant Apples now for shorter supplies which are expected to develop within the next few years due to the present light planting and abandoning of orchards of older, less desirable varieties.

APPLES—The King of Fruits

OUR TREES INSPECTED

By Virginia State Entomologist, certify they are apparently free from dangerously injurious insects and plant diseases. Also Apple, Pear and Cherry are frequently inspected by the Massachusetts Trueness-to-Name Inspection Service.

SUMMER AND FALL APPLES

Ripening Late June Through September

These Apples have been neglected in commercial plantings and are now proving, in many cases, more profitable than winter varieties. In the home orchard a selection from this list will furnish fresh fruit from early summer until late fall—including new introductions and old home orchard favorites.

- ✓ **Anoka.** Semi-dwarf. New, red, early bearer frequently fruiting second year after transplanted. Large, excellent cooker. One of the best early Apples. Just the tree for a small lot.
- ✓ **Early Harvest.** Well known, large, early golden yellow. An old home orchard Apple continuing in demand.
- ✓ **Grimes Golden.** Spicy, medium size, golden yellow. Firm, crisp, tender flesh. Excellent for sauce, as well as eating from hand. Ripens late fall. Recommended for every home orchard. Also profitable commercially.
- ✓ **Hyslop Crab.** Popular red, medium size Crab. Used chiefly for jellies and pickling. Tree and fruits ornamental. Strong growing, prolific bearer.
- ✓ **Lodi.** Improved Yellow Transparent; larger, ripening a few days later. Growing in commercial demand.
- ✓ **Maiden Blush.** August and September. Medium to large. Yellow background with red blush. Family favorite.
- ✓ **Red June.** Popular in the family orchard. Red. Medium size.
- ✓ **Smokehouse.** Old home orchard favorite. Medium to large, firm, greenish background, red striped. Ripens over a period of several weeks. Excellent for cooking and eating from hand when fully ripe.
- ✓ **Summer Rambo.** In Virginia and adjoining states there is possibly no other Apple found in so many orchards. So well known that no home orchard is considered complete without it. Also popular with many commercial growers as it is always in demand at good prices. August. Large red striped, greenish yellow background. Makes delicious sauce. You cannot go wrong in planting Summer Rambo.
- ✓ **Williams Early Red.** A profitable red commercial summer Apple. Large for an Apple of its season. Ripens around middle of July. Prolific, early bearer. Fruit beautiful. Good shipper.
- ✓ **Yellow Transparent.** Well known, transparent to golden yellow. Late June. Favorite for sauce. Early bearer. Gradually being displaced by its offspring, Lodi, which is larger.

Standard Apple Tree Prices

	1 to 5 Each	5 to 10 Each	10 to 30 Each	30 to 50 Each
2-yr., 4-6 ft. branched	\$1.85	\$1.70	\$1.50	\$1.35
2-yr., 3-4 ft. branched	1.35	1.20	1.10	.95
1-yr., 4-6 ft. whips	1.75	1.60	1.40	1.25
1-yr., 3-4 ft. whips	1.25	1.10	1.00	.90

3 and 4-yr., 6-7 ft. Jumbo Size 2.90 2.75 2.60 2.40

These Jumbo trees are available in most varieties offered in this catalog.

Note—The height of our trees is listed conservatively as frequently many of the stronger growing varieties have more height than given above.

NOTE—Following Special Apples now being offered at no advance in price over standard varieties: Vance Delicious, Double Red Rome Strain 262 and Double Red Stayman Strain 201.

On quantities of 50 or more, submit your list for Commercial Growers' Prices.

ENJOY FRESH FRUIT THROUGHOUT THE YEAR

By careful selection, Apples can be harvested from your trees over a period of six months and the better winter ones kept in storage until the new crop is harvested—making fresh fruit possible throughout the year.

Our list has been carefully made up after many years of growing and testing. The newer, better varieties are listed only after having been thoroughly tested and found to excel older ones of the same class.

Planters differ as to choice of Apples, size of trees, time to plant, etc. The New Double Red Strains are displacing the older ones commercially, but for the benefit of home orchard planters we still offer many old family favorites. Experienced planters are taking pollination into consideration in planting new orchards or even in replanting. So an assortment is recommended for this purpose. See Planting Table page 15.

Ripening Order Summer and Fall Apples

Variety	Color	Variety	Color
Yellow Transparent	Yellow	Summer Rambo	Red striped
Lodi	Yellow	Maiden Blush	Red blushed
Early Harvest	Golden yellow	Smokehouse	Red striped

\$8.55, Express

Yellow
Transparent

Improved Double Red

DELICIOUS, DOUBLE RED SPORTS

No Apple has produced as many Red Sports as Delicious. Much thought and time have been given to testing and selecting the most desirable ones. Each has some merit, but all strains are not needed as the better qualities are to be had in Vance and Western Strain.

VANCE DELICIOUS

Double Red - Eastern Strain

Solid Bright Red—Early Coloring—Higher Prices

Generally Considered the Best of the Double Red Delicious Sports

Discovery. Twenty-four years ago the late R. G. Vance discovered in his orchard in Albemarle County, Virginia, a branch on a standard Delicious tree producing solid bright red Apples coloring at least two weeks ahead of other fruit on the tree. After observing the highly colored Apples on this branch for two years in succession, Mr. Vance started top-working trees in his own orchard and made graftwood available to Waynesboro Nurseries—thus introducing a New Double Red Delicious Strain, named by us in honor of Mr. Vance.

SELLS FOR HIGHER PRICES BECAUSE OF EXCELLENT BRIGHT RED COLOR AND EARLY MATURITY

This is borne out in a letter received from Mr. Albert R. Vance, present owner of the orchard in which the famous Vance Delicious originated. We quote in part:

Waynesboro Nurseries, Inc.,
Waynesboro, Virginia
Gentlemen:

In addition to the so-called Vance Delicious, we have growing two of the best known Red Sport Delicious varieties along with the regular common Red Delicious.

On September 1 we started packing and shipping our Vance Delicious, which at that time was a solid bright red. We had ready sales for entire crop of 5,000 bushels at satisfactory prices, and were compelled to turn down orders while waiting for a week to ten days for proper coloring of the other two Red Sport Delicious. During this ten-day delay waiting for color there was a substantial decline in market prices.

Had our entire crop been this so-called Vance Delicious, it would have been sold in early September at satisfactory prices, instead of much lower prices at later dates.

This season has convinced me that the Vance Red Delicious is the most desirable of the Red Delicious Sports for the East. Our future plantings will be limited to this variety of Red Delicious.

Yours truly,
(Signed) ALBERT R. VANCE

VANCE pronounced **extremely promising** by Senator Harry F. Byrd, one of the first commercial growers to plant this strain in large quantities.

VANCE possesses normal Delicious qualities, plus earlier and better coloring. Adapted to both commercial and home orchard planting.

Vance
Delicious

DELICIOUS DOUBLE RED

Western Strain

Originated in Northwest. Represents improvement over the older strains by earlier and better coloring. Not yet as extensively tested as Vance Delicious, but has great promise. Size, quality of fruit, fruiting habits same as Standard Delicious.

STAYMAN, DOUBLE RED SPORTS

Scarlet Red - Eastern Strain. Brilliant red. Same size and bearing habits as Standard Stayman; better keeper. Its solid red color demands good prices.

Double Red No. 201 Western Strain. Outstanding among Double Red Stayman Sports. Taking the lead in commercial sections. Solid, bright red. Early coloring, may be harvested in advance of the old Stayman; same size, eating and cooking qualities.

Standard Apple Tree Prices

	1 to 5	5 to 10	10 to 30	30 to 50
	Each	Each	Each	Each
2-yr., 4-6 ft. branched	\$1.85	\$1.70	\$1.50	\$1.35
2-yr., 3-4 ft. branched	1.35	1.20	1.10	.95
1-yr., 4-6 ft. whips	1.75	1.60	1.40	1.25
1-yr., 3-4 ft. whips	1.25	1.10	1.00	.90
3 and 4-yr., 6-7 ft.				
Jumbo Size	2.90	2.75	2.60	2.40

These Jumbo trees are available in most varieties offered in this catalog.

Note.—The height of our trees is listed conservatively as frequently many of the stronger growing varieties have more height than given above.

NOTE.—Following Special Apples now being offered at no advance in price over standard varieties: Vance Delicious, Double Red Rome Strain 262 and Double Red Stayman Strain 201.

On quantities of 50 or more, submit your list for Commercial Growers' Prices.

Apple Pollination. Varieties such as Winesap, Stayman, McIntosh, and N. W. Greening do not fruit consistently unless pollinated by other varieties. Among the good pollinators are Delicious, Grimes Golden, Double Red Jonathan, Lowry, Yellow Delicious and Yorking.

Double Red
Stayman
No. 201

WAYNESBORO NURSERIES

Apple Strains . . .

ROME, DOUBLE RED SPORTS

✓ **Double Red No. 262 Strain.** New Northwestern Strain. Growing in popularity with both growers and the trade. Solid, dark red. Possesses all the good qualities of Rome Beauty and advantages of better and earlier coloring. Ranks near the top in new commercial plantings. Generally recognized as best of all Red Romes.

✓ **Double Red C&O. Strain.** Another well-known Northwestern Strain. Bright, solid red. Heavily planted in the East, as well as the Northwest.

SEE PLANTING TABLE PAGE 15

Double Red Rome Strain 262

RED YORKING

The York Supreme A SUPER RED YORK

One of the first Apples to be honored with U. S. Plant Patent, No. 125.

Inheriting all the good qualities of the famous old York Imperial and 100% more color, which appears earlier in the season.

YORKING'S CHIEF ADVANTAGES

1. **Color.** Every Apple being a bright cherry-red with no trace of stripes.
2. **Colors Early.** May be harvested two weeks ahead of York, resulting in better prices.
3. **Quicker Sales.** A basket or box of No. 1 Apples, every Apple being a solid red, will sell more readily than fruit with just enough color to pass inspection.
4. **More No. 1 Apples.** There being no culls due to lack of color, pack will be much larger and profit greater.
5. **Apparently More Prolific.** Because of having a larger leaf and more feeding capacity, it appears that the Yorking tree is going to be more productive, the fruit being uniform in size and in large volume.
6. **Combination Apple.** One of the best for processing. Due to its bright red color, it is also in popular demand on the fresh fruit market.

✓ York Imperial

✓ Yorking

The above print was made from a drawing of average samples of the fruit of Yorking and York. While every Yorking on the tree was a solid red, many of the Yorks were green and others only showed traces of red stripes.

YORKING has proved to be a great discovery, introduced at a time when there was need of better color and quality to meet increasing competition from citrus fruits and Apples from other sections.

YORKING continues to be our biggest seller, more than doubling our sales on any other variety.

Senator Harry F. Byrd, in addressing 5,000 fruit growers at his annual picnic, reported finding Yorking superior to all Red York strains tested. He also reported **Vance Delicious** as extremely promising and **Double Red Rome 262** a good early strain.

U. S. PLANT PATENT No. 125, MAY 29, 1935

Winter Apples

Best Selections

Term applies to varieties harvested in late fall and suitable for storing for winter use. The long keeping quality of these Apples is responsible for their making up a large percent of home and commercial orchard plantings.

✓ **Delicious.** Large, pointed; semi-sweet. Red striped. Being displaced by Double Red Strains. Described on page 4.

✓ **Jonathan, Double Red.** Improved, well-known, solid bright red Apple. Popular in both commercial and home orchard plantings. Excellent cooker. Early winter.

✓ **Lowry.** Resembles Delicious in quality; mild sub-acid. Medium to large, mahogany-red. Remarkable keeper; keeping even better than Delicious in cold storage. Frequently escapes late spring frosts because of its long blooming period and hardiness.

✓ **McIntosh, Double Red.** Bright red sport of McIntosh. Extensively grown in New York and New England states. Late fall in Virginia, a winter Apple farther north.

✓ **N. W. Greening.** Large, greenish yellow. Good cooker. Early, prolific bearer. One of the best processing Apples.

Rome, Double Red Strains—See page 5.

✓ **Stayman.** Formerly one of the leading commercial Apples. Large, green background with red stripes. Rich, crisp, tender, yellow meat. Excellent cooker, as well as for eating from hand. Is being displaced by Double Red Strain 201 and Scarlet Red. Described on page 4.

6-TREE HOME APPLE ORCHARD

Ripening from earliest to latest, affording fresh fruit throughout the year. We recommend the following as being especially suited for a home orchard collection:

Early Yellow Transparent
Summer Rambo
Delicious, Double Red

Stayman, Double Red
Winesap, Old Virginia Strain
Yorking

One each of above varieties—total six trees
3-year, 6-7 ft. size, \$16.50.

Yellow Delicious

✓ **Winesap, Old Virginia Strain.** Comes as near being adapted to all soils and climates as any Apple we know. Medium size, red skin slightly streaked with yellow. Flesh firm, crisp, sub-acid. Good keeper, making it popular for home and commercial orchards.

✓ **Yellow Delicious.** Also known as Golden Delicious. Conical shape, golden yellow. Early, prolific bearer. In demand for home orchards, as well as profitable commercially. Good for processing. Long keeper. Recommended as a cross pollinator.

✓ **York Imperial.** At one time the most extensively planted commercial Apple in famous Shenandoah Valley and Blue Ridge area of Virginia, West Virginia and Pennsylvania. Greenish yellow background, red striped cheek. Prolific bearer, excellent keeper. Being displaced by its offspring, Yorking, a Solid Red York. See illustration page 5.

SAVE TIME IN GROWING FRUIT BY PLANTING SUPER AND BEARING SIZE TREES

Will furnish fruit much earlier than smaller, younger trees. Recommended for replanting where pollination is a problem; also for planting home orchards. At this time we have available the following varieties in large trees, but supply is limited, so please mention second choice.

- | | |
|-----------------------------|-----------------------|
| ✓ Anoka | ✓ M. B. Twig |
| ✓ *Bonum | ✓ McIntosh |
| ✓ *Delicious, Double Red | ✓ N. W. Greening |
| ✓ Duchess, Early Double Red | ✓ Stayman, Double Red |
| ✓ Early Harvest | ✓ Sweet Paradise |
| ✓ Hyslop Crab | ✓ Winesap |
| ✓ *Jonathan, Double Red | ✓ Winter Banana |
| ✓ Lodi | ✓ *Yellow Transparent |
| ✓ *Lowry | ✓ Yorking |
| ✓ Maiden Blush | |

*Indicates varieties especially recommended for pollination.

PRICES—5 and 6-Yr. Trees

	1 to 3 Each	3 to 10 Each	10 to 30 Each

Virginia Winesap

WAYNESBORO NURSERIES

A One-Tree Apple Orchard

Furnishing Fruit From Early To Late

5-IN-1 TREE

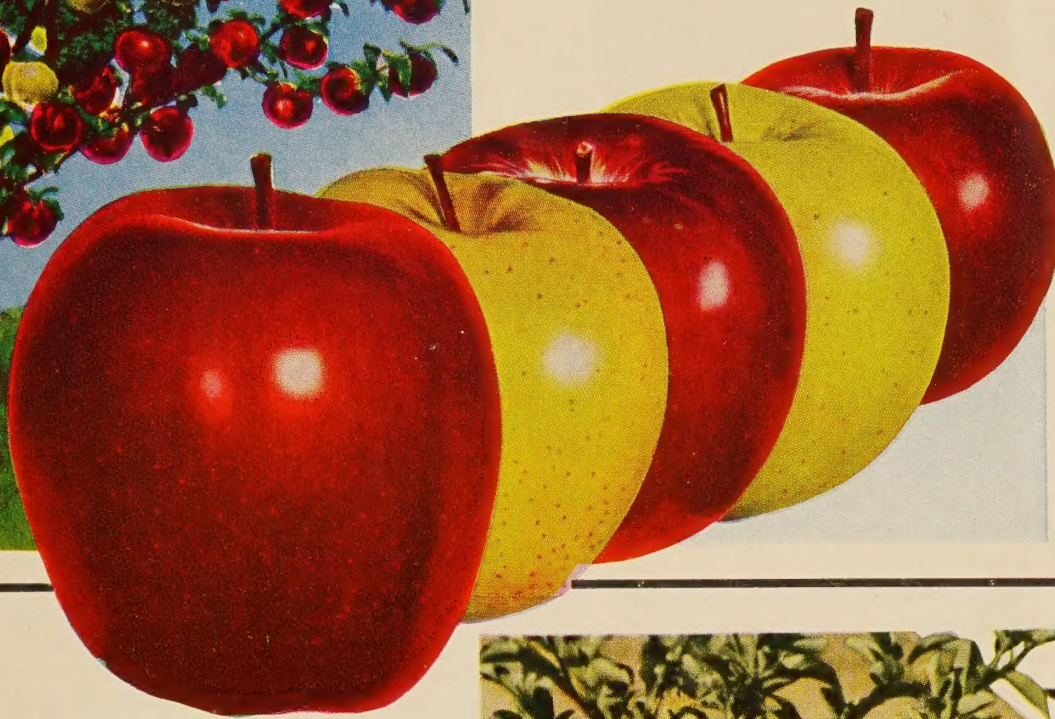

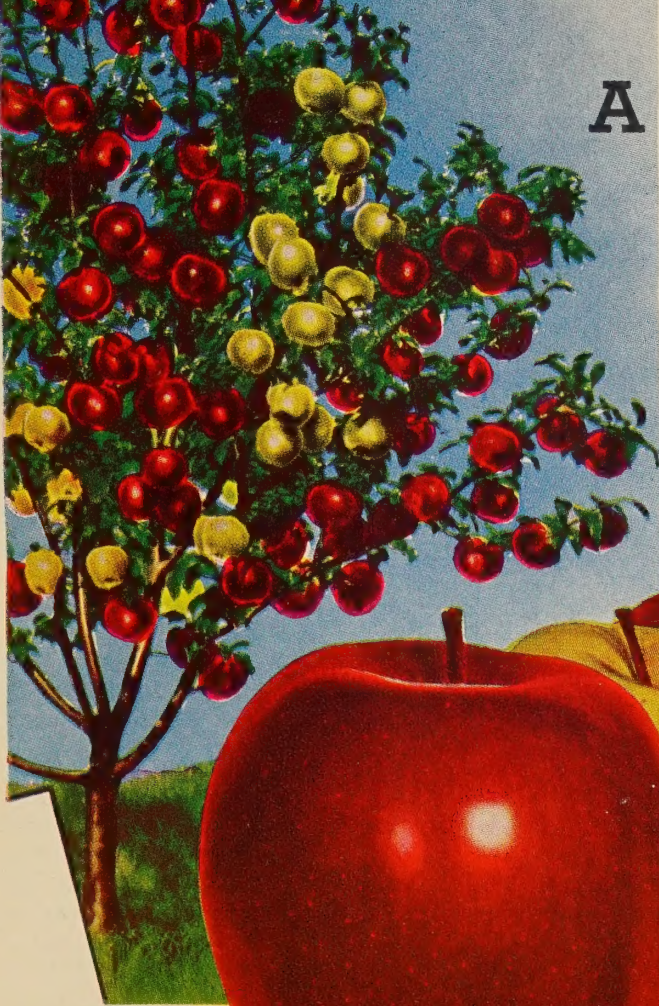

Made possible by grafting Apples ripening earliest to latest. Ideal where space can accommodate only one, two or three trees. The varieties grafted on 5-In-1 Trees will vary, but generally consist of Yellow Transparent, Summer Rambo, Stayman, Yellow Delicious, and Red Delicious. 2-yr., 4-5 ft. size, \$3.50 each. 3-yr., 5-7 ft. size, \$4.00 each.

4-IN-1 TREE

Produced in same manner as 5-In-1, but having one less variety. 2-yr., 4-5 ft. size, \$3.00 each. 3-yr., 5-7 ft. size, \$3.50 each.

3-IN-1 TREE

Consists of three choice Apples ripening at different seasons. 2-yr., 4-5 ft. size, \$2.50 each. 3-yr., 5-7 ft. size, \$3.00 each.

✓ Dwarf Apple Trees

Decorative and Fruitful

- ✓ Early Bearing
- ✓ Adapted to Limited Space
- ✓ Fruit Easily Harvested

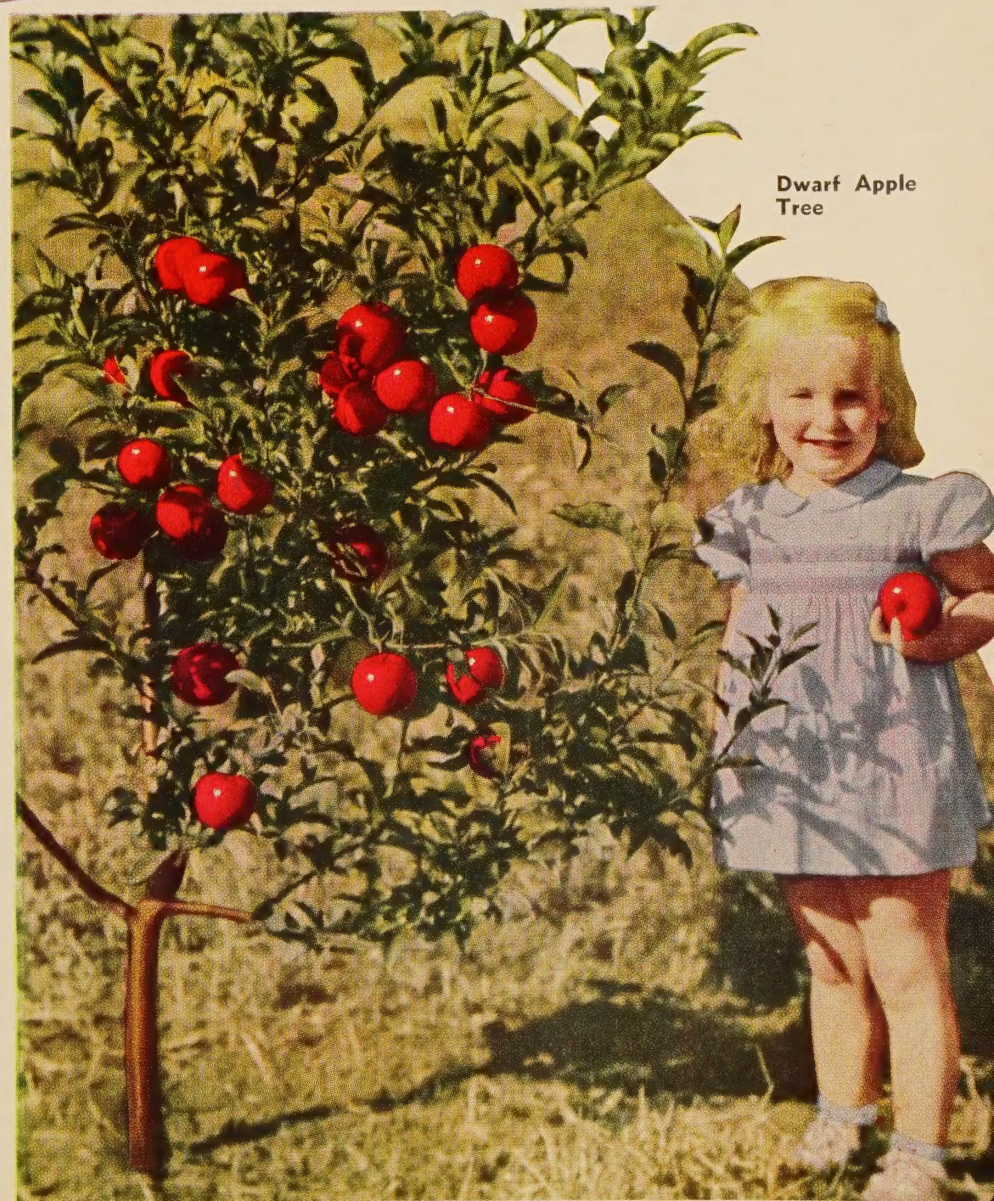

Made possible by grafting a standard variety on a dwarf rootstock—producing an early-bearing dwarf tree, frequently bearing second year after transplanted. Trees require less space, fruit is easily harvested. Especially desirable for small home grounds.

Dwarf Apple Trees available in following varieties:

Delicious, Double Red	Summer Rambo
Stayman, Double Red	Yellow Delicious
	Yellow Transparent

2-yr., 3-4 ft. trees, \$3.25 each in lots of 1 to 5; 5 to 10, \$3.15 each.

2-yr., 4-5 ft. trees, \$3.75 each in lots of 1 to 5; 5 to 10, \$3.50 each.

Dwarf Apple Tree

Waynesboro

Standard Commercial and

Peach Growing Promising

The Peach, an old favorite in the fruit family, is now making new friends. Recent chemical discoveries have simplified spraying, market expansion has been made possible by modern methods of freezing, home freezing units, frozen food locker plants, new methods of canning and keeping fruit fresh in storage. Planting of properly located orchards consisting of improved varieties has promise of being a profitable investment.

IMPROVED MARKETS. Population in the South has advanced with industrial development. Improved highway and hauling facilities are enabling markets, large and small, to provide consumers with fresh fruit daily from the orchard. For such a market it is advisable to plant a larger assortment of varieties ripening over a longer period.

FROZEN PEACHES IN GREAT DEMAND. Frozen fruit processing plants have created a new, profitable market for Peaches. Home freezers and frozen food lockers have likewise extended the local market for fresh fruit. The frozen fruit industry is just in its infancy. Freezing qualities of varieties are being considered and referred to in Planting Table on page 10.

Belle of
Georgia

ADVANTAGES IN PLANTING WAYNESBORO NURSERIES' TREES:

1. We are large growers, with more than thirty years experience in growing trees and serving planters.
2. Located in commercial fruit belt, making possible studying varieties and cutting budwood from bearing orchards.
3. Deep, loamy, fertile soil, adapted to growing vigorous trees with excellent root system.
4. New varieties made available after being thoroughly tested in area served.
5. Our fleet of trucks makes possible safe and prompt deliveries in nearby sections, assuring better results than could be expected from slower, less efficient delivery service.

Hale-
Haven

TREE-RIPENED PEACHES

Sweetest and best flavored. Enjoy the best by planting and growing Tree-Ripened Peaches for home use. The following varieties are recommended for a home orchard:

2 Golden Jubilee 2 Belle of Georgia 2 Elberta

6-Tree Home Peach Orchard, 5-6 ft. Jumbo Size, \$10.85, Express.

Elberta

PEACHES

Home Orchard Varieties

We Offer the Following *Choice Peaches*

Note—See page 10 for ripening order of Peaches.

* Indicates good freezing qualities.

** Indicates excellent freezing qualities.

✓ **Amber Gem.** Clingstone commercial canning Peach originating in New Jersey. A most desirable commercial canner. Now being planted in Michigan, West Virginia and northern Virginia. Long, medium size, beautiful color. Firm, yellow flesh. Early August.

✓ * **Belle of Georgia.** An old Peach, yet unsurpassed as a white freestone for home and commercial use. Large, white background, red cheek. Sweet, excellent peachy flavor. August.

✓ **Cardinal.** U. S. D. A. introduction, ripening around July 5th. Clingstone, medium size. Yellow with red blush. Flesh yellow, firm, medium texture.

✓ * **Coronet.** New, early yellow freestone introduced by U. S. Department of Agriculture. Yellow background with bright, attractive red blush. Flesh yellow, firm but melting, smooth textured. Vigorous, productive.

✓ ** **Dixigem.** Originated by U. S. Experiment Station, Fort Valley, Georgia. Yellow freestone ripening just ahead of Golden Jubilee. Medium size, bright red blush on attractive yellow background. Fine textured, excellent flavor. Vigorous, prolific. Promising.

✓ **Dixired.** U. S. D. A. introduction. Medium size, yellow clingstone. Acquires attractive red blush long before it is ready to pick. Especially desirable because of its earliness and high quality.

✓ * **Elberta.** Continues to be the most extensively planted Peach. Not the best quality, but its size, color and firmness combine to give it first place in both commercial and home orchard planting. One-fourth of all Peaches we sell are Elberta. Yellow freestone, red cheek. Mid-August. Elberta season has been extended by using Sullivan's Early Elberta, ripening ten days earlier, and Late Elberta, fifteen days later—making possible Elberta Peaches over a period of four weeks.

✓ * **Golden Jubilee.** Early, yellow freestone. Superior quality. Excellent for home consumption. Lacking in firmness demanded in a commercial Peach. July.

✓ ** **Hale-Haven.** Large, yellow freestone. Introduced by Michigan State Experiment Station. A cross between Hale and South Haven. Two weeks earlier than Elberta, making an excellent combination with Redhaven and Elberta. Ranks high in number of trees being planted.

Rio-Oso-Gem

Redhaven

Peaches — that Produce!

- ✓ **Heath Cling.** Large, late, white clingstone pickling Peach. Sept.
- ✓ **J. H. Hale.** Firm, yellow freestone. Golden yellow skin, red cheek. Demands top prices on market because of its large size and shipping qualities. Ranks high commercially. August.
- ✓ **Late Elberta.** Elberta type, ripening in early September. Yellow freestone with red blush. Medium to large.
- ✓ **Redcap.** New clingstone. Medium size, round; red blush. Flesh yellow, firm, good flavor. Vigorous, prolific. Early July.
- ✓ **Redhaven.** Bright red coloring on yellow background. Smooth, almost fuzzless. Firm yellow freestone. Fruit ripens uniformly; should be thinned for best results. Trees strong growers and prolific bearers. Has produced full crops in orchards where other fruit buds were winter-killed. Five days earlier than Golden Jubilee. Ranks near the top in commercial plantings.
- ✓ **Redskin.** Introduced by Maryland University Experiment Station. Cross between Hale and Elberta. Solid bright red. Yellow freestone. Firm flesh, good shipper, excellent quality. Generally recognized as a profitable commercial Peach. Ripens few days ahead of Elberta.
- ✓ **Rio-Oso-Gem.** Enormous, solid red. Yellow freestone. Ripens ten days later than Elberta. Especially noted for excellent quality, high color and firmness in shipping. Originated on Pacific Coast, but becoming famous in the East. Claimed by some as the world's best late Peach.
- ✓ **Shipper's Late Red.** Large, round, yellow freestone with attractive red coloring. Few days later than Elberta. Better quality, sells for as much or more. Ranks as a top commercial Peach; equally as popular for the home orchard. Hardy, strong grower, prolific.
- ✓ **Slappey.** Sweet, highly flavored yellow freestone. Purely a home orchard Peach. Considered best of all as a canner as it retains its sweetness and excellent flavor. Late July.
- ✓ **Sullivan's Early Elberta.** Yellow freestone sport of Elberta; identical size, color and shipping qualities. Ripens earlier, enabling the grower to have Elberta Peaches on the market ten days ahead of main crop. Being planted in all commercial Peach sections.
- ✓ **Sunhigh.** A New Jersey Experiment Station Peach, ripening fifteen days before Elberta. Large, bright red, yellow flesh; freestone. Firm shipper. Top-ranking commercial Peach.

Protect Your Peach Trees from Borers by Using DDT. See page 24-E.

Sunhigh

PEACHES

Ripening Order, Class, Freezing Qualities

The ripening date given is for a normal season at Waynesboro, Virginia. Some years Peaches ripen earlier and some later. Farther south the ripening period is earlier, and farther north, later.

Shropshire Damson

Plums

Mammoth Golden

Stanley Prune

Abundance

Early, Prolific Bearers—Easily Grown—Should Be in Every Home Orchard

There are two distinct types of Plums—the Oriental and European. The Oriental are generally quite juicy and tender, best suited to serving raw, fresh from the tree. The European are the firmer types, used for canning, preserving, butters, drying, etc. The Prune family belongs to the European type Plums. For best results, we recommend planting two or more varieties, providing cross pollination.

- **Abundance.** One of the best known Orientals. Lemon-yellow, overspread with bright cherry-red. Oblong, tapering to a point. Flesh orange-yellow, melting, rich and highly aromatic. Abundant, annual bearer. August.
- **Burbank.** Long-stemmed favorite. Oriental. Medium size, nearly globular. Purplish red with deep yellow flesh. Very sweet, with a peculiar, agreeable flavor. Early bearer. August.
- **European Prune.** Excellent for canning, drying, and dessert, as well as eating from tree. Long, oval, purple. Flesh firm, sweet and pleasant. Freestone. Late August.
- **Green Gage.** European type. Old favorite for home use because of its excellent quality and adaptability to canning and preserving. Egg-shaped. Purplish green skin.
- **Mammoth Golden.** Large, beautiful, delicious golden hybrid Plum. Freestone. Early August.
- **Red June.** Early red Oriental. Usually a sure cropper because of its late bloom. Very good Plum of its season.
- **Shropshire Damson.** Improved Damson, larger than old type, but possessing all of its good qualities. At one time the Damson was considered only a home orchard fruit but is now being grown commercially for jams and preserves. Late bloomer, early bearer, sure cropper.
- **Stanley Prune.** Improved Prune introduced by New York Experiment Station and considered by many as the best for home use. Also being planted commercially for local processing plants or for fresh fruit markets. Large, firm, dark blue, juicy, fine-grained, tender, sweet. Late August. See illustration above.

- 1 Abundance. Midseason.
- 1 Stanley Prune. Late.

Total Three Early-Bearing 4-6 ft. Trees, offered as a group for \$6.75.

WAYNESBORO, VIRGINIA

NECTARINES

Another delicious fruit too seldom grown in the East. Listed by some as a fuzzless Peach. The tree habits and quality of the fruit similar to those of the Peach with exception of fruit being smooth like Plum.

We offer the two following new Nectarines introduced by Virginia Agricultural Experiment Station and recommended as being vigorous, productive, and resistant to brown rot.

- **Cavalier.** Yellow-fleshed freestone with red and yellow skin. Ripens eight days before Elberta Peach.
- **Redchief.** White-fleshed freestone. Highly colored skin. Ripens few days ahead of Cavalier.

Red Chief Nectarine

Large Montmorency Pie Cherry

All Purpose

TWO DISTINCT CLASSES PIE AND SWEET CHERRIES

The Large Montmorency is the most popular Pie Cherry. Outstanding among the Sweets is the Greenwood, a dark red; and the Napoleon, a light wax. All others on our list are also worthy of a place on any table.

New processes of freezing afford this fruit great possibilities, as fresh Cherries may now be served throughout the year. As a commercial fruit it is coming into its own, but if you are not in position to grow Cherries commercially, why not plant on the home grounds, where you can enjoy the blossoms and shade, as well as fruit for family use?

Pollination. Sweet Cherries bear heavier and more regularly if cross pollination is provided for and planting two or more varieties is recommended. Pie Cherries are generally self-fertile.

PIE CHERRIES

- ✓ **Early Richmond.** Earliest pie Cherry. Bright red, round, medium size, young prolific bearer. See illustration front cover.
- ✓ **Large Montmorency.** The leading pie Cherry and most extensively planted of all Cherries. Large, midseason, dark red. Small seed, firm flesh. Ninety percent of all the frozen Cherries used for pies are Montmorency. Also just as popular in the home orchard. Makes beautiful lawn tree.

Our Large Montmorency Cherries are propagated from virus-free trees, which many commercial growers consider important.

PRICES ON PIE CHERRIES

	1 to 5 Each	5 to 10 Each	10 to 30 Each	30 to 50 Each
5-6 ft. Jumbo	\$2.75	\$2.65	\$2.50	\$2.35

3-4 ft.	2.00	1.85	1.60	1.45
2-3 ft.	1.60	1.45	1.30	1.20

NOTE: On quantities of more than 50, write for commercial growers' prices.

Ornamental and Fruitful

HANSEN HYBRID BUSH CHERRY

Purplish red, sweet fruit, one-half inch or more in diameter. Excellent for serving fresh and for jelly.

Dwarf, approximately 3 feet in height and spread. Ornamental as well as fruitful, being covered with white flowers in spring, foliage turning red in autumn. Ripens early July.

3-year bearing size bushes: \$1.50 each; \$15.00 per doz.

Bush Cherry

CHERRIES...

SWEET CHERRIES

STANDARD SWEET CHERRIES

- ✓ **Black Tartarian.** Large, purplish black. Tender, juicy, very rich. Vigorous grower, prolific bearer. Early.
- ✓ **Governor Wood.** Famous early wax. Heart-shaped. Light yellow flushed with red. Firm and sweet. Vigorous, productive.
- ✓ **Napoleon.** Most popular Wax Cherry. Two weeks later than Governor Wood; larger, better shipper. Beautiful golden background, bright red cheek.
- ✓ **Yellow Spanish.** Bright amber-yellow, reddish blush. Rich, sweet and tender, but firm enough for shipping. Resembles Napoleon, a few days later.

Napoleon

4-TREE HOME CHERRY ORCHARD COLLECTION C-13

Consisting of one each Early Richmond and Large Montmorency pie 'Cherries; also one each Napoleon Yellow Wax and Greenwood, Dark Red—two of the best Sweets.

All 4 trees in 4- to 6-ft. size—only \$9.85.

PRIZE SUPER SWEET CHERRIES

- ✓ **Greenwood.** Enormous mahogany-red, sweet fruit; small seed. Firm, excellent shipper, as well as an ideal Cherry for roadside stands and home use. Vigorous grower, prolific bearer. Apparently adapted to a wide range of soils and can be grown with a minimum amount of attention. However, it responds well to modern cultural practices.
- ✓ **Windsor.** Giant, late, juicy, firm. Prolific. Blackish maroon. Recommended for cross pollination. Planted commercially and for home use.

Greenwood

Delicious PEARS

ORIENT BLIGHT-RESISTANT PEAR

Crossing Chinese and European strains produces a blight-resistant Pear of good quality, adapted to areas where blight makes others impossible. Large, vigorous trees bearing enormous crops. Round, yellowish background with red blush. Juicy, melting, mild, sub-acid flavor. Creamy white flesh. Excellent for canning. Late August. If troubled with Pear blight, be sure with Orient.

We quote the following from the Progressive Farmer. "The Orient Pear seems to be one of the very few almost entirely immune to blight. Its fruit—fresh or canned—is excellent. As it does not pollinate itself very well, plant one Kieffer for each four to six Orients."

PRICES ON ORIENT PEAR

	1-5 Each	5-10 Each	10-30 Each
4-6 ft.	\$2.75	\$2.65	\$2.50
3-4 ft.	2.50	2.35	2.20
6-7 ft. Jumbo size	3.50	3.35	3.20

MOST POPULAR STANDARD PEARS

The Pears we offer have been thoroughly tested and found adapted to areas served. Selected to furnish fresh fruit from July to January.

Unfortunately, blight has prevented more extensive Pear culture. This is now being overcome with blight-resistant Orient.

Kieffer

Kieffer. Popular canner. Possibly planted in more home orchards than any other Pear. Less subject to blight than many, strong grower, early and prolific bearer. Large bell-shaped; golden background with red blush. Recommended for the home orchard, local markets, and roadside stands. Late September.

Bartlett. Well-known, large, long, rich golden yellow with red cheek. Thin-skinned, buttery and melting; rich, musky flavor. Strong grower, bears young and abundantly. August.

Clapp's Favorite. An old variety resembling Bartlett in shape, color, and quality, ripening a month earlier.

Seckel. The famous little brown, rusty-colored, sweet Pear. Fine-grained; excellent quality. Ideal for pickling and canning whole, as well as enjoyed when served fresh from tree. Late September.

PRICES ON STANDARD PEARS

	1-5 Each	5-10 Each	10-30 Each	30-50 Each
4-6 ft.	\$2.30	\$2.20	\$2.00	\$1.80

6-7 ft. Jumbo size	3.00	2.75	2.50	2.25

Note: On quantities of more than 50, write for commercial growers' prices.

EARLY BEARING DWARF PEARS

Frequently used in landscape plantings for ornamental effect, as well as for growing fruit. Early bearing. Adapted to limited space.

Bartlett and Seckel. 2-yr., 4-5 ft., \$3.75 each in lots of 1 to 5; 5 or more, \$3.50 each.

Orient

WAYNESBORO NURSERIES

Specials for the Garden

FIGS (Not Recommended North of Virginia)

A southern fruit, grown only in the southern and eastern part of Virginia and in states farther south; not recommended for general planting north of Virginia but may be grown farther north if given winter protection. Delicious Fig preserves will reward you for your efforts. One of the earliest trees to bear, often producing fruit the first year after being transplanted. The Fig is too well known throughout the South to require a detailed description. There are a dozen or more varieties, the **Brown Turkey** and **Celestial** being the most popular at this time.

- ✓ **Brown Turkey.** Dark brown skin covered with thick blue bloom. Flesh red, very delicious flavor. Popular, well-known.
- ✓ **Celestial.** An old favorite. Prolific. Light in color. Sweet and excellent. Found in home gardens throughout the South, as well as planted commercially in some sections.

FIG PRICES

	1 to 5 Each	5 to 10 Each	10 to 30 Each
3-4 ft., bearing size	\$2.00	\$1.85	\$1.75
2-3 ft.	1.65	1.55	1.45

Write for commercial prices on larger quantities.

POLLINATION. Most fruit and nut trees bear more consistently when cross pollination is provided for. Planting in lots of two or more is advisable.

Brown Turkey Fig

- ✓ **TRAVIS MULBERRY.** Hybrid Black Mulberry, being the largest, sweetest and most delicious. Many people enjoy fresh Mulberries from the tree; others plant them for poultry and birds. 4-6 ft., \$2.30 in lots of 1 to 5; 5 to 10, \$2.20 each; 10 or more, \$2.10 each.

- ✓ **ORIENTAL PERSIMMON.** The culture of this delicious fruit has been somewhat curtailed because many are not familiar with it. Some regard it as a tropical fruit. While it will grow in more tropical climates, it can be grown in Virginia, along the coastline farther north and generally throughout the South. Delicious fruit, frequently 3 inches in diameter. Large, orange-red, almost seedless, ripening in autumn.

	1 to 5 Each	5 to 10 Each	10 to 30 Each
4-6 ft.	\$2.75	\$2.65	\$2.50

- ✓ **NATIVE AMERICAN PERSIMMON.** A native fruit. Adapted to a wide range of soil and climate. Starts fruiting early, ripening golden brown in autumn, frequently hanging on trees until mid-winter. 4-6 ft. size, \$2.25 each in lots of 1 to 5; 5 or more, \$2.00 each.

- ✓ **ORANGE QUINCE.** Favorite fruit, noted for making Quince honey and tasty preserves. Large, orange-shaped; fine, golden, firm flesh of excellent quality. Best known Quince.

	1-5 Each	5-10 Each
4-6 ft.	\$2.75	\$2.65
3-4 ft.	2.50	2.35

Apricots

✓ SUPERB HARDY APRICOT

Delicious. Just as hardy and as easily grown as Peaches and our Russian strain often succeeds where Peaches fail! Medium size, golden yellow. Freestone. Excellent quality. Early bearer.

	1 to 5 Each	5 to 10 Each	10 to 30 Each
4-6 ft.	\$2.30	\$2.20	\$2.10
3-4 ft.	2.00	1.80	1.60
2-3 ft.	1.60	1.45	1.20

✓ PAW PAW

A native to parts of Virginia. Somewhat resembles the Banana and is much relished by many.

3-4 ft. trees, \$2.75 each;
4-5 ft. trees, \$3.50 each;
5-6 ft. trees, \$4.50 each.

AVERAGE BEARING AGE AND PLANTING DISTANCES OF FRUITS AND NUTS

Variety	Age of Bearing	Planting Distance	No. per Acre

Pear	2 to 3 years	20x20 feet	108
NUTS:			
Black Walnut	See description.		
Chinese Chestnut	2 to 5 years	30x30 feet	48
Chinquapin	1 to 2 years	20x20 feet	108
English Walnut	5 to 7 years	35x35 feet	35
Filberts	2 to 5 years	15x15 feet	193
Pecans	4 to 8 years	40x40 feet	28

Time required for trees and plants to begin fruiting after being transplanted may vary considerably, depending somewhat on the age and size of plant at time of transplanting, as well as the nature of the soil, care given, the season, and many other conditions. Even some varieties of a class will begin fruiting earlier than others. So the above table gives only approximate bearing ages under normal conditions.

Delicious GRAPES

Interlaken

Concord Blue Seedless

Bronx
Seedless

The city lot does not always afford ample room for all the tree fruits, but not even a lot is required to grow sufficient Grapes for family use. An arbor may be made over the walkway to the garage, the vines may be trained on outbuildings, the fence, or even on a trellis, affording a screen. Our large assortment of varieties will furnish Grapes of different types, ripening throughout the season. Grapes start bearing early—usually the second year after being transplanted—are generally annual bearers and easily grown.

Grapes may be divided into two groups—the bunch varieties, which are grown in all parts of the United States, and the Muscadine cluster class, the culture of which is limited to the South, seldom planted north of Virginia.

SEEDLESS GRAPES—Produced by Hybridizing

BRONX RED SEEDLESS

A Grand New Hybrid Seedless Red Grape. Enormous, attractive bunches as much as 12 inches in length. Berries large, crisp and firm. May be eaten with skin, as California Grapes. Vine vigorous and productive. Especially recommended for Virginia and states farther south. **1-5, \$1.25 each; 5-10, \$1.10 each; 10-30, \$1.00 each.**

NOTE: Write for commercial growers' prices on above Grapes in larger quantities than quoted.

CONCORD BLUE SEEDLESS

Berries slightly smaller than standard Concord; same flavor, ripening season. Early bearer. The first introduction of Seedless type Grapes. While a member of the Seedless family, occasional seeds are produced. **2-yr., 1-5, \$1.25 each; 5-10, \$1.10 each; 10-30, \$1.00 each.**

INTERLAKEN GOLDEN SEEDLESS

Newest of the Seedless introductions. Rich, golden yellow. Crisp, solid, sweet. Refreshing, tangy flavor. Hardy, vigorous. Early, ripening a month ahead of Concord. **2-yr., 1-5, \$1.75 each; 5-10, \$1.60 each.**

SENECA

**NEW, HARDY HYBRID CALIFORNIA
TYPE GRAPE**

A Grape that is entirely different, not just another variety. Early; bunches of good size, tapering and compact. Berries oval and golden yellow. Firm texture and the tender skin can be eaten with the pulp. Midseason. **2-yr., 1-5, \$1.00 each; 5-10, 90c each; 10-30, 80c each.**

WAYNESBORO NURSERIES

STANDARD BUNCH and MUSCADINE VARIETIES

STANDARD BUNCH GRAPES

Carefully selected from thoroughly tested commercial and home vineyard varieties, chosen not only as to quality, but to afford assorted colors ripening at different times.

- ✓ **Brighton.** Early, dark red. Medium size, thin skin. Flesh tender, sweet and of best quality.
- ✓ **Champagne.** Has made an especially good showing in our test vineyard, producing enormous bunches of large, greenish white Grapes which have a delicious flavor and hang on vine until late. Excellent wine Grape. Late.
- ✓ **Concord.** Most popular and extensively planted of all Grapes. Blue; large bunches, medium size berries. Midseason. We advise planting with Concord other varieties extending the season.
- ✓ **Delaware.** Early red. Bunches and berries small; excellent flavor and desirable in the home vineyard.
- ✓ **Fredonia.** Early blue Grape of Concord type, two weeks earlier. Gaining in popularity for home use. Thick skin, resistant to brown rot and attack by bees. Sweet, firm.
- ✓ **Lutie.** Very sweet, attractive red Grape. Compact bunches. Thin skin, tender flesh. Midseason.
- ✓ **White Niagara.** An old favorite. Best known white Grape. Serves as a standard among the whites as the Concord does among the blues. Berries and bunches large. Midseason.

To Be Served Fresh From the Vine, in Juices, Wine and Jelly

Brighton

Niagara

Concord

SOUTHERN MUSCADINES

The famous Grape of the South. May be had in an assortment ripening at different times. As some are not self-pollinating, the male non-fruiting plants are frequently planted with fruiting vines to assure crops. However, new, fruiting, self-pollinating and cross-pollinating varieties are now available—eliminating the need of non-fruiting plants. We recommend planting self-pollinating **Tar-Heel** or the newer, **Willard** with **Bronze Scuppernong**, **Hunt**, or **Thomas** to assure full crops.

The Muscadines are hardy in southern and eastern part of Virginia and states farther south. Somewhat more difficult to transplant than bunch Grapes.

- ✓ **Bronze Scuppernong.** Very large. Bronze flesh, pulpy, sweet, musky flavor. One of the oldest and best of the Muscadines. September.
- ✓ **Hunt.** Early, large, black. Thin skin, excellent flavor. Vigorous, prolific, regular bearer.
- ✓ **Thomas.** Reddish purple. Sweet, tender, pleasing flavor. Vigorous and productive. An old standby.

PRICES ON ABOVE MUSCADINES	1-5 Each	5-10 Each	10-30 Each	30 or More Each

Blueberries

Waynesboro BERRIES

FILL YOUR HOME FREEZER OR FOOD LOCKER WITH BERRIES

Modern home quick-freeze units and public frozen food locker plants make possible fresh, frozen fruits and vegetables throughout the year. Naturally it behooves each home owner to provide fruits for his home freezer or locker. Berries have high priority among frozen fruits. Plant not only for home use, but for an increasing commercial demand.

BLUEBERRIES

Giant Cultivated Blueberries

Blueberries have been greatly improved in the past few years. Giant cultivated varieties are the result of cross breeding the native, wild Blueberries. The new hybrids are plump, tender and practically seedless. Large clusters. Plant this delicious fruit and enjoy fresh, frozen or canned Blueberries—and Blueberry pie is hard to beat.

In addition to bearing a profitable crop, the Blueberry is an attractive ornamental shrub which may be planted on the lawn, in shrub borders, used in hedges or even as specimens. Its white flowers, blue berries and autumn colored foliage combine to add charm through most of the summer and autumn. Frequently bear first year after transplanted.

Soil Requirements: Blueberries require an acid, humus soil. If your soil is deficient in humus and acidity, we recommend making a heavy application of peat moss, rotted sawdust, decayed leaves, or something of that nature, plus a 1 to 2 lb. application of RHO-ZA-GROW, depending upon size of plants. RHO-ZA-GROW—See page 24D.

Pollination. It is advisable to plant two or more varieties for cross pollination.

SPECIMEN BLUEBERRY PLANTS Bearing Size Balled and Burlapped

	1-5 Each	5-10 Each

NEW BAILEY BLACKBERRY

Introduced by New York State Experiment Station.

Upright — Large — Sweet — Hardy —
Early Bearer—No Blanks or Sterile Plants
—Best Blackberry Available.

This is the Blackberry we have been hoping for as other varieties have been producing disappointing crops. Bailey being the best and most prolific, we are discontinuing all others.

Prices 2-yr., transplants: 6 for \$3.00;
12 for \$5.50; 25 for \$10.00; 50 for
\$19.00; 100 for \$34.50.

WAYNESBORO NURSERIES

Always Delicious Fresh or Frozen

RASPBERRIES

There are two distinct classes of Raspberries—the **Blackcap** and the **Red**; the Blackcap being grown over a large part of the United States, while culture of the Red is more or less restricted to the coldest part. Here in Virginia both are grown.

BLACKCAP RASPBERRIES

✓ **Cumberland.** Outstanding among Blackcaps. Standard commercial variety, as well as popular in the home garden. Large, purplish black, prolific. Firm, good quality. Most extensively grown Raspberry, succeeding over a wide area. Let your main crop of Blackcaps be Cumberland.

✓ **New Logan.** A most dependable Blackcap. Equally as large as Cumberland. A week earlier, prolonging the fresh fruit season. Heavy yielder.

BLACKCAP PRICES: 6 for \$1.80; 12 for \$2.60; 25 for \$4.10; 50 for \$7.10; 100 for \$12.35; 250 for \$26.80; 500 for \$43.10; 1000 for \$75.00.

EVERBEARING INDIAN SUMMER RASPBERRY

New Red. Best of all Everbearers. Introduced by New York Experiment Station and now being planted from Maine to Florida. Produces enormous crop in early spring, repeating in the fall. Large, conical, firm, excellent quality. Especially suited for home use but also planted commercially. Bears first season.

INDIAN SUMMER PRICES: 6 for \$2.25; 12 for \$3.25; 25 for \$5.25; 50 for \$9.50; 100 for \$16.00; 250 for \$35.00; 500 for \$60.00; 1000 for \$95.00.

Indian Summer

Latham

STANDARD RED RASPBERRIES

✓ **Latham.** Brilliant red, mosaic-resistant. Good shipper and popular for the home garden. Suitable for serving fresh, frozen, or in jams. Rates as high among Reds as Cumberland does among Blackcaps.

✓ **Sunrise.** A new Red introduced by U. S. Department of Agriculture. Very early with a long picking season, making it ideal for the home garden. Hardy. Flavor and quality the best. Especially adapted to the South where not all Red Raspberries are successful.

STANDARD RED RASPBERRY PRICES: 6 for \$2.05; 12 for \$2.95; 25 for \$4.75; 50 for \$8.10; 100 for \$14.00; 250 for \$30.30; 500 for \$48.85; 1000 for \$85.00.

✓ LUCRETIA DEWBERRY

Often referred to as a low-growing Blackberry. Lucretia is the most popular and satisfactory Dewberry—large fruit often measuring 1½ inches in length, sweet, highly flavored.

PRICES: 6 for \$1.80; 12 for \$2.60; 25 for \$4.10; 50 for \$7.10; 100 for \$12.35; 250 for \$26.80; 500 for \$43.10; 1000 for \$75.00.

Cumberland

Waynesboro STRAWBERRIES

Robinson

No fruit is found in more gardens than the Strawberry, which can be successfully grown in almost all soils and climates, requiring little attention other than keeping the beds free of weeds. It, however, responds to fertilization and culture. A lot of delicious fruit can be obtained from a small section of your garden.

Strawberries may be had in assorted varieties, furnishing berries throughout the season, but we recommend planting only a sufficient number to cover the season and furnish proper pollination. From our list such a selection can be made including the three most popular Everbearers to furnish fruit during the fall when berries are at a premium.

Be sure to plant enough for freezing and enjoy Strawberries throughout the year.

Pocahontas

Spring and Summer Planting Recommended. While a large percent of the planting is done in spring months, when plants are available, we are prepared to hold in our modern cold storage dormant plants for June, July and August planting. Fall planting is sometimes practiced in localities not subject to winter freezing and thawing, but generally is not recommended in the area we serve.

Planting Distances—See table page 15.

Standard Spring-Fruiting Strawberries

EARLY

↘ **Dixieland.** The new early berry for the South. Introduced by North Carolina Agricultural Experiment Station. Berries very uniform in shape and ripen with Blakemore; larger and firmer. Good shipper, excellent for freezing. One of the best home berries and profitable commercially.

Per 25	\$1.50	Per 100	\$4.50	Per 500	\$14.00
Per 50	2.50	Per 250	9.00	Per 1000	22.50

↘ **Blakemore.** The berry of the South, where more Blakemore are grown than all other Strawberries combined, producing year after year crops of early, bright red, firm, sweet berries. Good shipper and popular for home use. Blakemore can be grown in all parts of the United States where Strawberries are cultivated, but due to its hardiness, freedom from disease and dependability, producing crops under most unfavorable conditions, it is the universal berry throughout the South. Satisfactory freezer.

↘ **Premier.** One of the best known early commercial and home garden berries. Large, excellent quality, firm shipper, good freezer.

LATE

↘ **Ambrosia.** Considered the largest and best of all late Strawberries. Recent introduction, but extensively planted. Late bloomer, sure cropper. In every respect a wonderful berry. Frequently produces full crop when early varieties are killed by late spring frosts.

STRAWBERRY PRICES

Standard varieties listed on this page with exception of Dixieland, Pocahontas and Tennessee Beauty:

Per 25	\$1.25	Per 250	\$7.00
Per 50	2.00	Per 500	11.00
Per 100	3.50	Per 1000	17.50

MID-SEASON

↘ **Pocahontas.** New mid-season berry recently released by U. S. Department of Agriculture. Fruited in our nursery for the first time during spring and summer 1955. We were so impressed with the performance of the plants and quality of the fruit that we do not feel space will permit as much comment as Pocahontas merits. Normally a spring-fruited Strawberry, does not fruit the first season planted. This new berry planted in mid-April started fruiting in May and continued without let-up until mid-July. Berries large, firm and sweet throughout long ripening season. Total yield more than doubled that of any other variety in our nursery. In a class to itself because of its extended ripening season. Vigorous grower and plant producer, even while ripening fruit.

Per 25	\$1.50	Per 100	\$4.50	Per 500	\$14.00
Per 50	2.50	Per 250	9.00	Per 1000	22.50

↘ **Tennessee Beauty.** (U. S. Plant Pat. No. 629). Originated at Tennessee Agricultural Experiment Station. Good size, smooth, uniform berries, even glossy red. Rates high for general home use, including freezing; also firm shipper, and holds its color well. Plants vigorous, healthy and heavy yielders.

Per 25	\$1.50	Per 100	\$4.50	Per 500	\$14.00
Per 50	2.50	Per 250	9.00	Per 1000	22.50

↘ **Robinson.** Good midseason. Late bloomer, especially recommended for sections where early varieties are subject to injury by late spring frosts. Tremendous size, sweet, firm, glossy red, uniform. Ideal for filling in the gap between early and late.

Blakemore

NEW STRAWBERRY COLLECTION

A Delicious Fruit Easily Grown

Everbearing

STRAWBERRIES

The Everbearing Strawberry does for Strawberries what the Hybrid Tea Rose does for Roses—extends the season from May until November. We offer three outstanding Everbearers—Red Rich, Superfection, and Streamliner—all of which will bear the first season.

New **RED RICH** Everbearing

U. S. Plant Patent No. 993

The Everbearer you have read so much about. We quote from the Country Gentleman: "A new Everbearer called Red Rich promises to be the very best everbearing variety of our time."

Honey-sweet. Rich red color, all the way through. Firm texture. Largest, reddest, and sweetest Everbearer you ever saw.

Perfect for Freezing. Being solid and firm.

Red Rich will bear fruit in spring, late summer and fall. As it is a heavy producer, fewer plants are required.

Supply of plants limited, not more than 500 plants offered in any one order.

Prepaid parcel post prices: 12 plants for \$2.95; 25 for \$5.00; 50 for \$8.50; 100 for \$15.00; 250 for \$32.50; 500 for \$62.50.

SUPERFECTION

The New Superfection is all the name implies. Berries large, roundish in shape, dark red all the way through, have zippy, sweet flavor. Firm texture. Grand freezer. Bears some fruit continuously from a short time after planted until the snow flies and heavy crops both spring and fall. Vigorous grower. As Superfection has all the required marketing qualities, it is becoming a favorite Everbearer.

Prices: 25 plants for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$19.75; 1000 for \$35.00.

Superfection

Ideal Home Garden Collections

100 **Blakemore.** Early, bright red favorite.
100 **Tennessee Beauty.** New. Midseason.
50 **Ambrosia.** Giant late frequently missing spring frosts.
250 Plants Furnishing Fruit from Earliest to Latest **\$8.15, Postpaid**

For large family or the home freezer, double the above collection—total 500 plants for \$12.60, postpaid.

500-Plant Home Collection

Ideal for families desiring berries for preserving and freezing.

150 **Blakemore.** Early, bright red.
100 **Dixieland.** New early.
100 **Robinson.** New midseason.
100 **Ambrosia.** New late.
50 **Streamliner.** New everbearer.
500 Plants **\$12.85, Postpaid**

Note.—Strawberries are put up 25 plants to the bunch and are not offered in smaller quantities than 25, or in broken bunches.

✓ STREAMLINER

Jumbo size, firm, and sweet. Produces a crop in spring equal in quality and yield to the best one-season varieties, starting again in July and continuing until freezing weather, furnishing more and more big, firm, sweet, bright red berries which are excellent for serving fresh, freezing and preserving. Has displaced most of the older Everbearers because of its enormous yields and fruit of superior quality.

Prices: 25 plants for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$19.75; 1000 for \$35.00.

PARCEL POST SHIPMENTS OF STRAWBERRIES

Strawberry plants, with exception of special collections and Red Rich, are sold f.o.b. shipping point, but can often be shipped to best advantage by Parcel Post. It is impossible to estimate in advance exactly what postage will be, but if you would like Parcel Post shipments, advise. You may remit whatever postage the package shows.

Plant NUT TREES

At one time wild, native nuts in an assortment of varieties could be harvested in almost all timbered sections of the East, but this is no longer possible. American Sweet Chestnut was wiped out by blight. Shellbark Hickory has been cut for wood, and even Black Walnut—one of the most valuable timber trees—has been practically eliminated as a native tree. So if we are to enjoy nuts, it is necessary to plant and cultivate them, as other crops.

Our trees are nursery grown, transplanted, and root pruned, minimizing risk in transplanting.

As nut trees have a deep root system, and are heavy feeders, they respond to fertile, well drained soil. For best results, plant two or more trees of a class, providing for cross pollination.

Chinese BLIGHT RESISTANT CHESTNUTS

LARGE, SWEET CHESTNUTS ARE AGAIN A REALITY

More than thirty years ago blight destroyed our Native American Chestnuts. The U. S. Department of Agriculture—after many tests—introduced a type of Chinese Chestnut not only blight-resistant, but an early bearer of large, good quality nuts. Trees start bearing when very young, often in 2 to 5 years, and succeed anywhere American Sweet Chestnuts formerly grew; in fact, they are successful in most parts of the United States. A well drained, sunny location is recommended. Plant Chinese Chestnuts for attractive home ground shade trees and also reap a harvest of delicious, sweet nuts.

	1-5 Each	5-10 Each	10-30 Each		1-5 Each	5-10 Each	10-30 Each

Write for commercial growers' prices on lots of more than 30.

ENGLISH WALNUT

A familiar nut in stores, but it is not generally known that English Walnuts can be grown to perfection here in Virginia and other Eastern states. It could mean to the Middle Atlantic area what Pecans mean to the Deep South. Two trees on a farm here in the Shenandoah Valley have for the past 30 years more than paid taxes on the entire farm, besides supplying the family. English Walnut trees require no more care than Apples, begin bearing as early.

	1-5 Each	5-10 Each	10-30 Each
12-18 in., 1-yr.	\$1.30	\$1.20	\$1.00
18-24 in., 2-yr.	1.70	1.60	1.35
2- 3 ft., 3-yr.	2.85	2.75	2.50
3- 4 ft., 4-yr.	3.60	3.50	3.25

FILBERT (Hazelnut)

Hardy valuable nut which grows into a small, shrub-like tree, seldom attaining a height of more than 15 feet. We offer both the native American and the much improved Barcelona European Filbert. Both are adapted to a wide range of soil and climate and are being cultivated in most parts of the United States. Useful for shrub borders or screens, as well as producing nuts.

Native American. Family favorite Filbert. Attractive bush, yielding abundant crops of tasty, round nuts; young bearer.

	1-5 Each	5-10 Each	10-30 Each
2-3 ft.	\$1.50	\$1.25	\$1.00
3-4 ft., bearing size	2.00	1.75	1.50
4-6 ft., bearing size	3.00	2.75	2.50

Barcelona. Improved, large English Filbert. Most extensively planted commercial variety. Plant with Native American for cross pollination.

	1-5 Each	5-10 Each	10-30 Each
3-4 ft.	\$3.00	\$2.75	\$2.50
4-6 ft.	3.75	3.50	3.25
6-8 ft.	5.00	4.75	4.50

NUT CULTURE PROMISING AS A COMMERCIAL CROP

We quote from the **Home Horticulturist**, published in Chicago, Illinois, emphasizing Nut Culture for profit and as a hobby: "It would seem that nut culture offers much promise as a commercial crop. In addition it is interesting and a much enjoyable hobby, furnishing food for the home."

American Filbert

English Walnut

CHINQUAPIN

(*Castanea Pumila*)

A junior member of the Chestnut family. Small, shrub-like tree maturing at the size of a Peach tree. Begins bearing early—often first year after transplanting. Delicious nuts 1/2 inch in diameter are borne singly in Chestnut-like burrs, ripening in September. Surely you have a place on the lawn, in the garden or orchard for some of these interesting, ornamental, as well as fruitful little trees. Just think of the fun the children can have harvesting Chinquapins.

	1-5 Each	5-10 Each	10-30 Each
18-24 in., bearing size	\$2.35	\$2.25	\$2.00
2- 3 ft., bearing size	2.85	2.75	2.50

A 100-year-old English Walnut Tree growing in Augusta County, Virginia. This remarkable tree has a spread of 60 feet. It produces annual crops of thin-shell nuts of excellent quality, selling for just as much as the Pacific Coast nuts.

WAYNESBORO NURSERIES

for Shade and Delicious Nuts

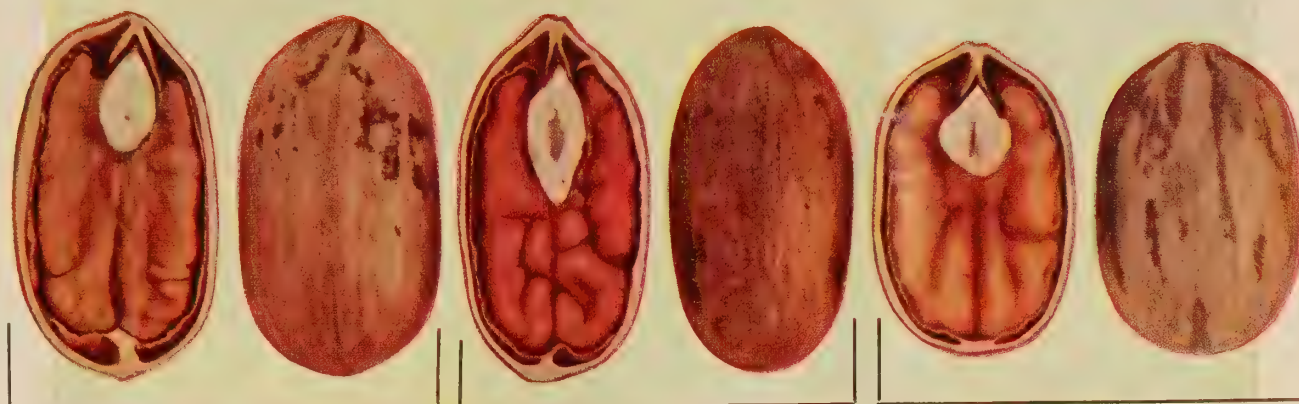

Home Pecan Planting

To Provide:

Delicious Nuts
Pollination
Stately Shade Trees

At a cost no more than non-productive Shade Trees.

Consisting of one each Giant Mayhan, Stuart and Papershell — total Three Pecan Trees, 4 to 5 ft. Size—\$11.75.

Mayhan

Stuart

Papershell

PECANS

Profitable as a commercial crop in the warmer parts of Virginia and in states farther south. Desirable for shade and home-grown nuts in areas bordering the commercial belt. After once established, the Pecan is a strong-growing, shapely, long-lived tree—ornamental as well as fruitful. From numerous improved varieties we attempt to offer only selected ones satisfactory in the territory we serve. Write for commercial growers' prices on more than 30.

✓ MAYHAN PECAN—New Giant Early Bearer

An experiment station reports a yield doubling other varieties. Nuts of enormous size, thin shell, good quality, selling for higher prices than old Pecans. Trees frequently start bearing two or three years after being transplanted.

	1-5 Each	5-10 Each	10-30 Each
3-4 ft.	\$3.75	\$3.50	\$3.25
4-5 ft.	4.75	4.50	4.25

✓ **Stuart.** Possibly the best known and most extensively planted Pecan because of its adaptability to a wide range of culture. Can be grown in the Deep South and being early, it matures farther north than later varieties. Good size nuts with thin shell. The Stuart planted with well-known Papershell or new Mayhan will provide for cross pollination.

PRICES ON STUART PECANS

	1-5 Each	5-10 Each	10-30 Each
3-4 ft.	\$3.25	\$3.00	\$2.75
4-5 ft.	4.00	3.75	3.50

✓ **Papershell.** Nuts not quite as large as Mayhan and Stuart, but good quality, thin shell. Well shaped, fast growing tree. Excellent pollinator for other varieties. Large production of Papershell makes possible following low prices:

PAPERSHELL PECAN PRICES

	1-5 Each	5-10 Each	10-30 Each
2-3 ft.	\$2.25	\$2.10	\$2.00
3-4 ft.	2.75	2.60	2.45
4-5 ft.	3.50	3.25	3.00

✓ BLACK WALNUT

Every planter is familiar with the native Black Walnut, but not all are aware of its possibilities. As a timber proposition, its culture is extremely profitable, especially when planted on pasture land, as Black Walnut does not interfere with grass and when established, the trees afford shade for livestock. Produces nuts which are now in great demand and grows into valuable timber. When planted for nut bearing, the recommended spacing is 40x40 feet; for timber, 8x8 feet. Prices on root-pruned, transplanted trees as follows:

	1-5 Each	5-10 Each	10-30 Each
2- 3 ft.	\$1.20	\$1.10	\$1.00
3- 4 ft.	1.75	1.60	1.50
4- 6 ft.	2.25	2.10	2.00
6- 8 ft.	3.00	2.80	2.60
8-10 ft.	3.75	3.50	3.25
1-yr., 12-15 in.	\$2.50 per 10; \$18.00 per 100		

✓ AMERICAN SHELLBARK HICKORY

Delicious, thin shell Hickory Nuts may still be grown, harvested and enjoyed. 2-3 ft., \$3.00 each; 3-4 ft., \$3.75 each.

Chinquapin

Asparagus and Rhubarb

For Your Early Spring Garden

Mary Washington

ASPARAGUS

PEDIGREED—RUST-RESISTANT

One Planting Will Serve Your Table for Many Years Without Replanting

Easily grown, producing an enormous amount of wholesome food at small cost and effort. Readily in demand and a profitable commercial crop, its chief requirement being a deep, fertile soil.

We grow and offer the **Pedigreed Mary Washington**, which is generally recognized as best and most satisfactory Asparagus. Giant, crisp, tender stalks. 100 plants will furnish you with fresh Asparagus for six weeks in early spring, but do not overlook providing frozen Asparagus for enjoyment months later.

Cultural Instructions. For home garden culture, plant 6 inches deep, 12 inches apart in rows 3½ feet wide. Do not cover the crowns more than 2 inches at first, gradually filling in as they grow. If soil is not very fertile, we recommend a heavy application of manure or commercial fertilizer, repeating each year. In commercial plantings, the rows are sometimes 4 feet wide, so as to provide ample space for tractor cultivation.

Red
Rhubarb

RHUBARB

—Or Pie Plant

Delicious for pies or sauce when served fresh, canned, or frozen. Prefers deep, fertile soil, but requires very little attention. Not even necessary to move or replant each year. Plant 3 to 4 ft. apart in rows or beds.

CANADA RED

Reddest of all the Red Rhubarbs. Tender, juicy stalks, rich red all the way through. Skin so tender that peeling is unnecessary. May be served fresh throughout spring and summer. Seedless; propagated by divisions only. **Strong divisions, 90c each; 3 for \$2.60; 6 for \$4.95.**

VICTORIA

Enormous, long, tender stalks. Early. 2-yr. roots, 90c per 3; \$1.50 per 6; \$2.75 per doz.; \$4.85 per 25; \$8.50 per 50; \$15.00 per 100.

Flowering SHRUBS

This important class of plant material has many uses in modern planting—in shrub borders, as specimens and the low-growing types in foundation plantings. Improvements have extended the blooming season, as well as afforded a more beautiful combination of colors. Shrubs are inexpensive, easily transplanted and grown. Make your selection from the following choice varieties.

NOTE: Size immediately after name of shrub indicates matured height, and not height at planting time.

ABELIA grandiflora. One of the most beautiful and useful of all flowering shrubs. Glossy foliage which is evergreen in Virginia, excepting severe winters—making it eligible for classification as a broad-leaved evergreen as well as a shrub. So we are listing it under both Shrubs and Broad-leaved Evergreens. Transplants reasonably well dug without ball, provided pruned severely at time transplanted. (See page 32 for balled and burlapped plants). Grows to a height of 4 to 6 feet, making it ideal for foundation planting; also used for hedges and shrub borders. Small, light pink, tubular blossoms appear in July and continue until frost. Hardy as far north as Philadelphia. Offered in following sizes, dug without ball: 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.25 each; 3 or more, \$2.15 each.

Red Barberry

ALMOND, Flowering (*Prunus glandulosa sinensis*). 5 ft. Dwarf shrub. Double pink flowers appear in spring in masses, covering plant. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

ALTHEA—Rose of Sharon (*Hibiscus syriacus*). An old-time flowering shrub not only found in old gardens, but worthy of a place in the modern planting. Hollyhock-like flowers from midsummer until late fall, when few shrubs are in bloom. Lavender, Pink, Purple, Red and White. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.25 each; 3 or more, \$2.10 each.

BARBERRY, Red-leaved (*Berberis atropurpurea*). 4 to 5 ft. Resembles Barberry thunbergi, differing by having blood-red foliage. Yellow blossoms followed by red berries, which hang on well into winter. Useful in screens, hedges and group plantings. 12-15 in., 75c each; 3 to 30, 70c each; 30 or more, 65c each. 15-18 in., 85c each; 3 to 30, 80c each; 30 or more, 75c each. 18-24 in., \$1.25 each; 3 to 30, \$1.15 each; 30 or more, \$1.00 each.

BARBERRY thunbergi (*Berberis thunbergi*). 4 to 5 ft. Too well known to require a detailed description as this popular shrub is found in almost every planting. Used as specimens, in borders and hedges. 2-yr., 12-15 in., 50c each; 3 to 30, 45c each; 30 or more, 40c each. 3-yr., 15-18 in., 65c each; 3 to 30, 60c each; 30 or more, 55c each. 4-yr., heavy 18-24 in., 90c each; 3 to 30, 80c each; 30 or more, 70c each.

BEAUTYBUSH (*Kolkwitzia amabilis*). 6 to 8 ft. A shrub with great possibilities. May be used in combination with Abelia and other shrubs of similar height and habits to furnish bloom throughout the summer. Long, arching branches covered in early spring with masses of pink, tubular blossoms. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

Abelia

Crape Myrtle

CRAPE MYRTLE

(*Lagerstroemia indica*)

The South's most beautiful shrub. Blooms from July until frost. While it has been known to stand temperatures of as much as 15 degrees below zero, it is not considered entirely hardy in the higher altitudes of western part of Virginia. Adapted to southern and eastern Virginia and along the Atlantic seacoast as far north as Philadelphia. Throughout the South the Crape Myrtle ranks at the top as a flowering shrub, growing much larger and being longer lived than in this area. More difficult to transplant than most shrubs. Should be pruned severely when transplanted and given plenty of time to start new growth. Spring planting recommended. Pink, watermelon-red, purple and white. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each. **LARGE BB. SPECIMENS QUOTED ON REQUEST.**

BUSH HONEYSUCKLE

(*Lonicera*)

Hardy, easily grown shrubs which have many uses, thriving in both shade and sunlight, furnishing bloom in spring followed by red berries later in the season. Available in following varieties: 2-3 ft. size, \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

Fragrantissima (Evergreen Bush Honeysuckle). 8 to 12 ft. Fragrant white flowers in early spring followed by scarlet fruits.

Morrowi. 6 to 8 ft. Wide-spreading branches producing a profusion of creamy white flowers followed by bright red berries relished by birds.

Standishi. 5 to 6 ft. White flowers, red fruit.

Tatarica rosea. 6 to 8 ft. Rosy pink flowers in April, followed by red berries. Useful in hedges, shrub borders and backgrounds.

Tatarica rubra. 6 to 8 ft. Deep pink flowers, red berries.

BUTTERFLY BUSH (Buddleia)

Summer Lilac

6 to 7 ft. Under this class we offer the finest varieties which will furnish long spikes of various colors from early summer until frost. After you see them, you will agree that great improvements have been made in Buddleia in the past few years and you are going to be pleased with any ordered from our collection, which we offer in the following choice named varieties:

2-yr., \$1.25 each; 3 or more, \$1.00 each.

Charming. Best of the pinks. Vigorous; free bloomer. **Crimson Glory**. Same habits of growth and blooming season as Ile de France, but flowers are deep purplish red.

Ile de France. One of the best and most popular of the new named varieties. Profusion of rosy purple flower spikes 6 to 9 in. long. July to frost.

Mt. Everest. New, pure white, blooming from early July until frost. Beautiful as a garden shrub, as well as excellent for cut flowers.

Weeping Butterfly Bush (Buddleia, Azure Fairy). A weeping fountain of beauty. Arching lilac-colored flowering spikes as much as 3 ft. Early summer. Grows 5 to 6 ft. in height. 2-yr., \$2.00 each; 3 or more, \$1.85 each.

CHINESE BEAUTYBERRY (*Callicarpa purpurea*). 3 to 4 ft. Graceful, dwarf shrub. White flowers July and August, followed by masses of purple berries. Important berried plant. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

CORALBERRY chenaulti (*Symphoricarpos chenaulti*). 3 to 4 ft. Useful, dwarf shrub adapted to wide range of soil and climate. Somewhat weeping. Light pink flowers in early summer followed by coral berries which hang on well into winter. Hardy, easily transplanted. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

CRANBERRY BUSH (*Viburnum americanum*). White flowers followed by orange-red berries. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

DEUTZIA

An old, popular garden shrub now available in an assortment of improved varieties. We offer the following in 2-3 ft. at \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

Crenata. 6 to 8 ft. Double pink. Slightly fragrant flowers.

Pride of Rochester (*Deutzia scabra*). 6 to 8 ft. Fast-growing, early. Masses of pink-tinged flowers covering the shrub.

Gracilis. 2 to 3 ft. Snowy white flowers in May. Valued because of its dwarf habit, adapting it to foundation plantings, borders and other locations requiring low-growing plant material. 12-15 in., \$1.25 each; 3 or more, \$1.15 each.

Gracilis rosea. Similar to Gracilis, but pink flowers. 12-15 in., \$1.25 each; 3 or more, \$1.15 each.

DOGWOOD, Red Stem (*Cornus stolonifera*). 6 to 8 ft. Spreading shrub with bright, reddish purple branches, which are quite ornamental during winter months. Creamy white flowers, dense clusters, followed by white berries, making it a useful year-round shrub. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

DOGWOOD, Golden Stem (*Cornus stolonifera lutea*). Same sizes and prices as Dogwood, Red Stem.

EUONYMUS alatus (Winged Burningbush). 6 to 8 ft. Unusual shrub. Upright, dwarf habit, compact, horizontal, spreading branches with a unique, corky winged growth. Tiny, chocolate colored flowers followed by red berries; beautiful scarlet autumn foliage. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.15 each.

FLOWERING QUINCE (*Cydonia japonica*). 6 to 8 ft. Old shrub found in almost every garden and sometimes referred to as "Japonica." Red flowers in early spring, lasting several weeks. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

FORSYTHIA (Goldenbell)

Average height 6 to 8 ft. One of the first flowering shrubs to bloom—covered with yellow, tubular flowers before the foliage appears. Attractive, useful shrub throughout rest of the year. Often used as hedges, screens, shrub borders and especially useful on steep banks, preventing erosion, as it can be grown in almost any kind of soil and climate. We offer following standard varieties: 2-3 ft., \$1.00 each; 3 to 30, 90c each; 30 or more, 80c each. 3-4 ft., \$1.50 each; 3 to 30, \$1.35 each; 30 or more, \$1.20 each. 4-5 ft., \$2.00 each; 3 to 30, \$1.85 each; 30 or more, \$1.70 each.

Fortune Forsythia (*Forsythia fortunei*). Vigorous, upright grower; twisted petals.

Green-Stemmed Forsythia (*Forsythia viridissima*). Most vigorous; green bark; dark green foliage. Late.

Showy Border Forsythia (*Forsythia spectabilis*). Upright. New, popular, profuse bloomer. Rich golden yellow.

Weeping Forsythia (*Forsythia suspensa*). Excellent as a ground cover for steep banks and for hiding unsightly objects. Beautiful habit of growth and blossoms.

Dwarf Forsythia. New dwarf Forsythia resembling Spectabilis but growing only 2 to 3 ft. in height. Suitable for foundation plantings. 15-18 in., \$1.00 each. 3 or more, 90c each. 18-24 in., \$1.50 each; 3 or more, \$1.35 each.

FORSYTHIA, SPRING GLORY

Lovely recent introduction. Dwarf grower. Large, creamy yellow flowers of an entirely different shade, completely cover the branches. The pleasing, unusual color and abundance of bloom make Spring Glory especially outstanding. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each. 4-5 ft., \$2.75 each; 3 or more, \$2.60 each.

FORSYTHIA, LYNWOOD GOLD

New golden yellow. Erect branches literally covered with flowers from top to bottom. Matured height 5 to 7 ft. A worth-while companion to the popular light yellow Spring Glory. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each. 3 or more, \$1.85 each.

Flowering Quince

BLUE HYDRANGEAS

(*Hydrangea macrophylla*)

NEW NIKKO BLUE. (Illustrated opposite page.) Produces masses of large, blue flower heads on new wood, resulting in flowers every year, while the better known varieties bloom only on old wood, sometimes accounting for non-flowering when the wood is cut back or freezes. Plant New Nikko Blue and enjoy flowers every year. Soil requirements same as China Blue Boy Hydrangea. 2-yr., \$2.00 each; 3 or more, \$1.85 each.

China Blue Boy. Massive flowers lasting for weeks. Blooms from May until frost. For best results and violet-blue blossoms, plant in a moist, acid soil using peat moss, Rho-Za-Grow or similar organic material. Prefers partial shade and winter protection as given Roses. Beautiful shapely, low-growing shrub with glossy green foliage. Useful in foundation plantings. If pink flowers are desired, sweeten the soil with lime. 2-yr., \$1.25 each; 3 or more, \$1.15 each. 3-yr., \$1.75 each; 3 or more, \$1.60 each.

HYDRANGEAS

Hills of Snow (*Hydrangea arborescens grandiflora*). 3 to 4 ft. Large, flat, white, snowball-like flowers, continuing throughout summer. Can be grown in full sunlight or partial shade. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

Peegee (*Hydrangea paniculata grandiflora*). 6 to 8 ft. An old shrub which continues in great demand. Enormous white, conical-shaped heads appearing in August and remaining intact throughout the season but turning to a light pink during fall. For best results prune back each winter. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

KERRIA JAPONICA. 4 to 6 ft. Bright green stems, dark green foliage, yellow blossoms all summer. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

Forsythia, Lynwood Gold

WAYNESBORO NURSERIES

New Nikko Blue Hydrangea
(See opposite page for description.)

LILAC (Syringa)

An old shrub which has lost none of its popularity, in fact, is more in demand than ever, due to much improvement in varieties.

Named Hybrids—Selected to furnish an assortment of colors:

Belle de Nancy. Double pink.
Charles X. Single reddish purple.
Jan Van Tol. Single pure white.
Ludwig Spaeth. Single deep purple.
Pres. Grevy. Double bluish lilac.
Rubra de Marley. Single reddish purple.

PRICES ON ABOVE NAMED LILACS: 18-24 in., \$1.75 each; 3 or more, \$1.60 each. 2-3 ft., \$2.25 each; 3 or more, \$2.10 each.

MISCELLANEOUS LILACS: We offer following in 2-3 ft. size at \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each:

Chinese (Syringa rothomagensis). Violet-red. Profuse bloomer.

Old-Fashioned Purple (Syringa vulgaris).

Old-Fashioned White (Syringa vulgaris alba).

NEW FRENCH PUSSY WILLOW
(*Salix discolor*)

Improved Pussy Willow with large, silvery catkins. Popular for indoor late winter and early spring forcing. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

MOCKORANGES (Philadelphus)

Will furnish a wealth of blooms in late spring and early summer.

Sweet (Coronarius). 8 to 10 ft. Vigorous grower, adapted to either full sunlight or partial shade. Very fragrant, creamy white flowers borne in profusion. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

Virginal. Large, lovely pure white, semi-double flowers with orange blossom fragrance. Neat, semi-dwarf shrub, growing only 6 to 7 feet tall. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

PEARL BUSH (Exochorda grandiflora). 8 to 10 ft. Large, fast-growing shrub. Pure white flowers in May. Useful in shrub borders, back-grounds, and as screens. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more \$1.85 each.

PURPLE FRINGE or SMOKE TREE (Rhus cotinus). 10 to 12 ft. Conspicuous, spreading, shrub-like tree. Large clusters of round leaves, overhanging in mid-summer by mist-like clouds of tiny lavender-pink, silken fibers hanging on for months. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

REGEL BORDER PRIVET (Ligustrum regelianum). A beautiful shrub. Very hardy. Dark, shiny leaves. Graceful, drooping branches. Blue berries which hang on well into winter. Ideal for covering walls, banks, or a low foundation. 18-24 in., \$1.25 each; 3 to 30, \$1.15 each; 30 or more, \$1.00 each. 2-3 ft., \$1.75 each; 3 to 30, \$1.60 each; 30 or more, \$1.50 each.

ROSE-ACACIA (Robinia hispida). 5 to 6 ft. Rosy pink flowers in May and June. Suitable for mass plantings on steep banks. 3-yr., \$1.50 each; 3 or more, \$1.35 each.

ROSEMARY WILLOW (Salix incana). 8 to 10 ft. Attractive, slow-growing Willow with silvery leaves resembling Russian Olive. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

SCOTCH BROOM (Cytisus scoparius). An old plant which is not as extensively used in America as in Europe. However, it can be successfully grown here. Dark green stems make it attractive throughout the year. Bright yellow flowers appear in May and June. Mature height 6 ft. 3-yr. clumps, dug without ball, \$2.00 each. 4-yr. clumps, dug without ball, \$2.75 each.

SNOWBALL, Old-Fashioned (Viburnum opulus sterile). 8 to 10 ft. Very satisfactory, hardy shrub with beautiful clusters of large, globular white flowers in May. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each. 4-5 ft., \$2.25 each; 3 or more, \$2.10 each.

SNOWBALL, Japanese (Viburnum tomentosum plicatum). 7 to 8 ft. This semi-dwarf type is more extensively used than old-fashioned Common Snowball. Big, white flowers in June. Glossy green foliage in summer, turning purplish red in autumn. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each. 4-5 ft., \$2.75 each; 3 or more, \$2.60 each.

SWEET SHRUB (Calycanthus floridus). 4 to 6 ft. An old garden favorite. Dark reddish brown, fragrant flowers May to October. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

SNOWBERRY (Symphoricarpos racemosus). 4 to 5 ft. Handsome dark green foliage and a profusion of large white berries in the fall. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

VIBURNUM carlesi. 4 ft. Produces delicate spice-scented, fragrant, light pink flowers in May and June. 2-3 ft., BB., \$3.50 each.

VIBURNUM lantana (Wayfaring Tree). Single white flowers in May followed by red fruit, which changes to black. 18-24 in., \$1.50 each; 3 or more, \$1.35 each.

VITEX macrophylla (Chaste Tree). 4 to 5 ft. Large, showy, lavender flower spikes from July until frost. 18-24 in., \$1.25 each; 3 or more, \$1.15 each.

SPIREAS

A desirable class of shrubs, available in many varieties. The following are especially useful for both small home plantings and larger landscape developments. Spireas are easily grown, inexpensive, adapted to a wide range of soils, hardy in almost all climates.

Anthony Waterer (Spiraea Anthony Waterer). 2 ft. Suitable for planting under windows and along shrub borders. Low-growing. Flat, rose-pink flower clusters in great numbers in June, scattered blossoms throughout summer. (Illustrated page 28.) 15-18 in., \$1.25 each; 3 or more, \$1.15 each. 18-24 in., \$1.75 each; 3 or more, \$1.60 each.

Billiardi (Spiraea billiardi). 4 to 6 ft. Ever-blooming Spirea. Pink and white spikes which are at their best in July but continuing until frost. 2-3 ft., \$1.00 each. 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Blue (Caryopteris incana). Compact, low-growing shrub, covered with masses of powdery blue flowers from August to frost. Tops are perennial, like Butterfly Bush. 3-yr. plants, \$1.00 each; 3 or more, 90c each.

Korean (Spiraea trichocarpa). 5 to 6 ft. One of the newer Spireas. Resembles Van Houtte, blooming two or three weeks later, extending the season. Pure white. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Reeves (Spiraea reevesiana). 5 to 6 ft. White flowers borne in clusters along the branches in May, following Van Houtte. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Thunbergi (Spiraea thunbergi). 4 to 5 ft. Attractive green foliage which turns to beautiful color of orange and red in autumn. Dainty white flowers in early spring. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Van Houtte (Spiraea vanhoutteii). 6 to 8 ft. At home almost everywhere planted, under the most favorable and unfavorable conditions. Medium grower. Often used in foundation plantings, shrub borders, as specimens, and serving other purposes. Spreading, attractive shrub with graceful weeping branches. Good foliage and in early spring is covered with masses of pure white flowers. (Illustrated page 28.) 2-3 ft., 75c each; 3 to 30, 70c each; 30 or more, 65c each. 3-4 ft., \$1.00 each; 3 to 30, 90c each; 30 or more, 80c each.

TAMARIX (Tamarix africana). 8 to 10 ft. Tall, slender, straggly growing tree with beautiful, feathery foliage. Delicate pink flowers in April. 3-4 ft., \$1.25 each; 3 or more, \$1.15 each. 4-5 ft., \$1.75 each; 3 or more, \$1.60 each.

Virginal Mockorange

Spirea Van Houttei
(See page 27 for description)

WINTERBERRY (*Ilex verticillata*). 6 to 8 ft. Deciduous Holly noted for its bright red, shiny winter berries. Entirely hardy. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

WINTER JASMINE (*Jasmine nudiflorum*). Low-growing. Weeping branches, profusion of yellow blossoms in early spring. Used for covering banks and walls and other locations where a low grower is required. 2-yr., \$1.50 each; 3 or more, \$1.35 each. 3-yr., \$2.00 each; 3 or more, \$1.85 each.

VITEX macrophylla (Chaste Tree). 4 to 5 ft. Large, showy, lavender flower spikes from July until frost. 18-24 in., \$1.25 each; 3 or more, \$1.15 each.

Spirea, Anthony Waterer
(See page 27 for description)

WEIGELA

Old garden shrub continuing in demand; used in gardens of all sizes and designs.

Eva Rathke. 4 to 5 ft. Free bloomer, beginning in May and blooming intermittently until late fall. Bright red. Dwarf grower, suitable for foundation planting. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

Rosea. 7 to 8 ft. Best known and most extensively planted pink Weigela. Blooms abundantly in May and June. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

WILLOW, Dwarf Blue-leaf Arctic (*Salix purpurea nana*). Low-growing Willow especially suitable for edgings. Easily grown, extremely hardy. Foliage lovely silvery green. For edging or hedges, plant 8 inches apart. May also be grown as single specimens. 18-24 in., 75c each; 3 to 30, 70c each; 30 or more, 65c each.

HEDGES

A hedge is ornamental as well as it affords protection, costs less than metal, wood or stone fence, requires little attention and upkeep, lasts almost indefinitely. We especially recommend Evergreen Chinese Privet for home planting and landscape effect and Rosa Multiflora for field fences.

EVERGREEN CHINESE PRIVET

(*Ligustrum sinensis*)

Also known as Amur River South Privet. Improved, evergreen type. Just as hardy as California Privet and has added advantage of retaining its glossy green foliage throughout the average winter. Rapid, compact grower, making a dense hedge in a short time. May be kept sheared to almost any desired height from 1 to 8 feet. Suitable for surrounding the entire home grounds or as a line between yards.

Planting. For a dense, compact hedge, plant 6 inches apart in a single row, pruning back within 2 or 3 inches of the ground at time of planting. For a screen, plant 12 inches apart.

NOTE: Write for prices on larger quantities of Evergreen Chinese Privet.

CALIFORNIA PRIVET

(*Ligustrum ovalifolium*)

Well-known. No longer planted in Virginia, but planted in states farther north. Offered in 2-yr., 2-3 ft. and 3-4 ft., well branched plants at the same prices as Chinese Evergreen Privet.

Practical Multiflora Rose Fence

(*Rosa multiflora*)

Living Farm Fence of Great Value

Inexpensive, easy to grow, stock-tight. Recommended by U. S. Soil Conservation Service. Thousands now planted. Need no trimming. Easily destroyed by 2-4-D. Practical, ideal for wild life, beautiful. White flowers in spring, followed by bright red berries in fall and winter. Grows 6 to 8 feet tall, 5 to 7 feet wide. Plant 1 foot apart in single row. Protects soil, crops, game.

WAYNESBORO NURSERIES

Waynesboro's Choice EVERGREENS

For Year 'Round Beauty
CONIFEROUS OR CONE-BEARING TYPES

A Model Low Cost EVERGREEN FOUNDATION PLANTING

Consisting of 6 Evergreens suitable for the small home.

- 2 American Pyramidal Arborvitae. 24-30 in. To be used at corners.
- 2 Globe Arborvitae. 15 in. For space between entrance and corner.
- 2 Berckmann's Golden Arborvitae. 15-18 in. For each side of entrance.

6 Choice Evergreens for only \$24.50

Not only beautiful in winter when the earth is brown and deciduous trees are barren, but graceful and effective during the summer. Our Coniferous Evergreens are offered dug with ball of earth and can be transplanted throughout the year. However, planting during the hotter months—June, July and August—is limited. Cannot be conveniently packed for parcel post shipment. Write for prices on large specimen Evergreens.

ARBORVITAE (Thuja)

At one time the Arborvitae was the most extensively planted Evergreen and some types are still popular; others have been displaced by the more generous use of Hemlocks, Yews, and Broad-leaved Evergreens.

American (*Thuja occidentalis*). The mother of this big class. Dark green foliage, pyramidal in form, but more spreading and less compact than American Pyramidal. Useful as a windbreak, screen, or as a specimen. 24-30 in., \$4.00; 30-36 in., \$4.75; 3-4 ft., \$6.00.

American Pyramidal (*Thuja occidentalis pyramidalis*). Well-known pyramidal Evergreen and an excellent companion of the Globe when used in foundation plantings, being used at the corners and other spaces where pyramidal types are required. More slender and compact than the American, requiring no shearing unless it is necessary to trim to a desired height; in that case, shearing does not detract from the appearance of the plant. 18-24 in., \$3.75; 24-30 in., \$4.50; 30-36 in., \$5.50; 3-4 ft., \$7.00; 4-5 ft., \$9.00.

Globe (*Thuja globosa*). Dwarf, compact, globe-shaped grower. Ideal for foundation plantings, for hedges, bordering flower gardens, and numerous other uses. 12 in., \$3.00; 15 in., \$3.75; 18 in., \$5.00.

Berckmann's Golden (*Thuja orientalis aurea nana*). Well-known plant with golden foliage. Frequently used with Pyramidal and Globe Arborvitae. 12-15 in., \$3.25; 15-18 in., \$4.00.

CEDRUS DEODARA (Silvery Blue Cedar)

The famous Cedar of the Himalayan Mountains. Tall, rapid grower. Silvery blue foliage. Useful for planting in groups and as lawn specimens. Not entirely hardy north of Washington, D. C. More beautiful than the Colorado Blue Spruce and better adapted to the South. 18-24 in., \$5.00; 24-30 in., \$6.75; 30-36 in., \$8.75; 3-4 ft., \$11.00.

FIRS

A group of Evergreens especially adapted to high altitude, well drained soil, and colder climates. Not recommended for the Deep South. Used as specimens or in evergreen groups.

Balsam (*Abies balsamea*). Dark green foliage. Makes an excellent live Christmas tree, which can be lighted and used from year to year. 24-30 in., \$5.00; 30-36 in., \$6.75; 3-4 ft., \$8.50; 4-5 ft., \$11.00.

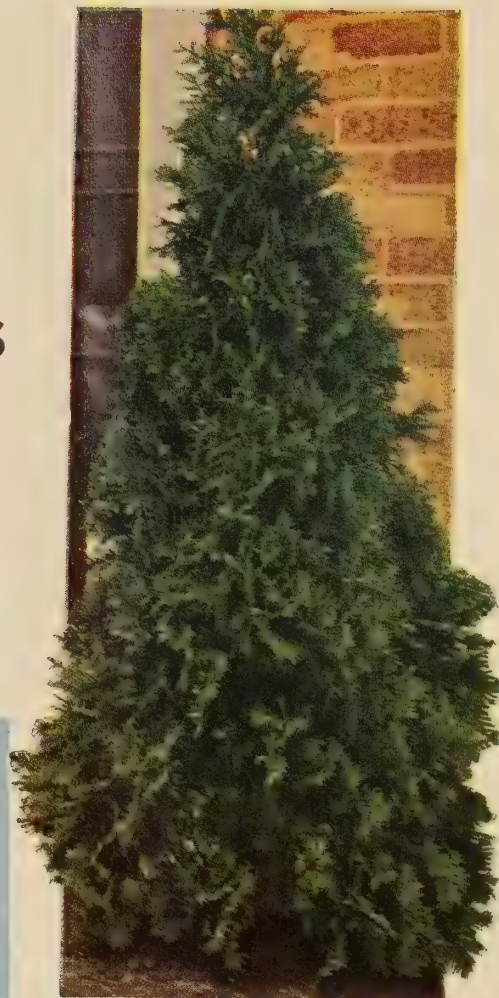

Douglas (*Pseudotsuga douglasii*). Tall, fast-growing Fir. Light green foliage, silvery underneath. 24-30 in., \$5.00; 30-36 in., \$6.75; 3-4 ft., \$8.50; 4-5 ft., \$11.00.

Save Your Shrubs and Trees from Dog Destruction

by spraying with Chaperone, a dog repellent. Not offensive to human beings, but dogs don't like it and stay away. Works like magic. Harmless, does not show. Economical to use—each application lasts up to three weeks, rain or shine.

Also effective with cats and other animals.

8 ounces, \$1.65, postpaid.

American Pyramidal Arborvitae

Berckmann's Golden Arborvitae

Globe Arborvitae

Plant

CONIFEROUS EVERGREENS

White Pine

HEMLOCK, Canadian

(*Tsuga canadensis*)

A most satisfactory Evergreen. Native of America, now appreciated as never before. Hardy, adapted to wide range of soil. Strong grower, beautifully shaped, graceful; good foliage. Easily transplanted and may be kept sheared to almost any desired shape and size. Effective in foundation plantings, to be used at the corners and in other spaces where a taller growing Evergreen is required. Makes excellent hedge and useful as a background, or screen about the garden. 18-24 in., \$4.00; 24-30 in., \$5.00; 30-36 in., \$6.50; 3-4 ft., \$8.00.

A Model, Medium Price Foundation Planting for a Small Home

2 Hicks' Yew. For each side of entrance.

4 Pfitzer Juniper. Under windows.

2 Canadian Hemlock. To be used at corners.

All 8 Evergreens in the 18-24 in. general landscape size for \$34.50.

Pfitzer Juniper

JUNIPER (*Juniperus*)

Useful family of Evergreens. May be had in numerous shapes, colors, and textures of foliage, as well as in sizes to meet almost any requirement.

The Junipers, as a rule, prefer a rather dry, sunny location. An effective, complete landscape planting may be had by arranging according to height, spread, and color of foliage.

Andorra (*Juniperus communis depressa plumosa*). Compact, prostrate grower with beautiful, grayish green foliage in summer turning to attractive bronze color during winter. Hardy, strong grower. Especially suitable for covering banks, as a border, at the side of steps or end of walkway near the gate. 18-24 in., \$3.75; 24-30 in., \$4.50; 30-36 in., \$5.75.

Irish (*Juniperus communis hibernica*). Tall, slender Evergreen with silvery green foliage. Often used at corners and at posts in foundation plantings where a columnar type is required. Also used in formal gardens where it can be sheared to almost any desired height. Hardy, vigorous grower; easily transplanted. Prefers full sunlight. 18-24 in., \$3.25; 24-30 in., \$3.75; 30-36 in., \$4.75; 3-4 ft., \$5.50.

Pfitzer's (*Juniperus chinensis pfitzeriana*). Possibly the best known and most extensively planted of all the Junipers, as it ranks near the top among Evergreens. A low grower, almost prostrate. Light green foliage. Hardy and adapted to almost all soils, other than a very wet location which no Juniper likes. Especially useful in foundation plantings, under windows, in low Evergreen borders, etc. Withstands partial shade. 15-18 in., \$3.50; 18-24 in., \$4.00; 24-30 in., \$4.75; 30-36 in., \$6.00; 3-4 ft., \$8.00.

Silver Pfitzer's (*Juniperus glauca Hetzi*). Silvery foliage. Somewhat more upright grower than green type Pfitzer. 15-18 in., \$3.50; 18-24 in., \$4.00; 24-30 in., \$4.75; 30-36 in., \$6.00.

PINES (*Pinus*)

No Evergreen is adapted to a wider distribution than the Pine—in America from the Atlantic to the Pacific, from northern Canada to Florida; also grown in most other countries of the world. There are many species, having varied uses. We offer those especially suited to the area we serve—the White Pine being used for screens, windbreaks, Evergreen groups, hedges, and specimens; the Mugho, most dwarf of all Pines, seldom growing more than 4 feet in height, with equal spread, is used in foundation plantings, in beds, at entrances, and in other positions where a low-growing Evergreen is required. Austrian, a slow, dwarf grower, is especially well suited for borders and screens. Scotch Pine is also suitable for screens and as specimens.

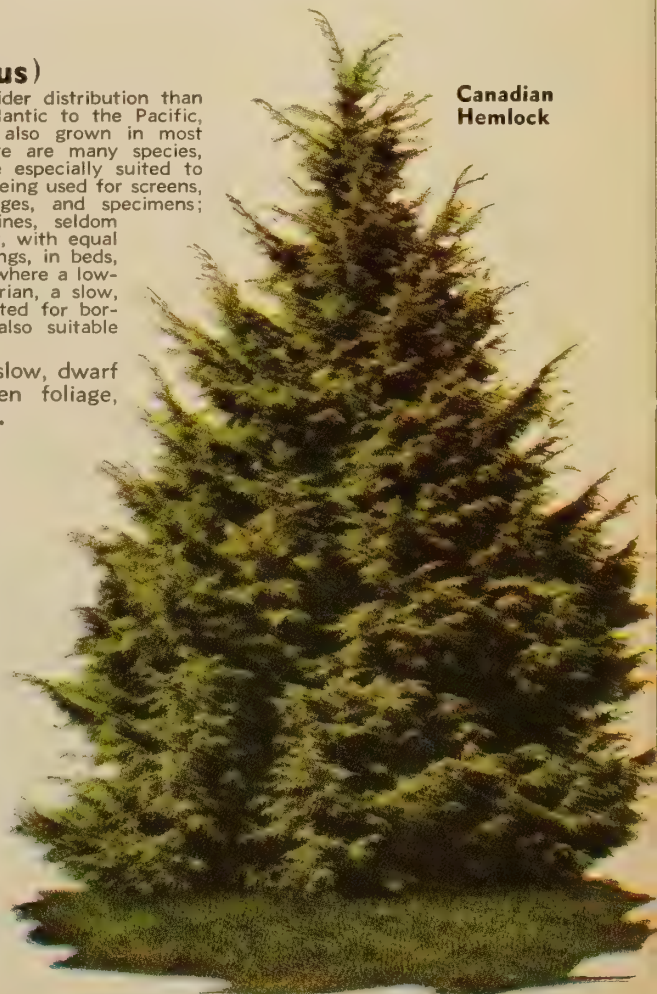

Austrian (*Pinus nigra*). Rather slow, dwarf grower. Compact, dark green foliage, long needles. 4-5 ft., \$8.50.

Mugho (*Pinus montana mughus*). Dense, compact grower, especially effective in the spring when the new growth starts. 15-18 in., \$5.00; 18-24 in., \$6.50; 24-30 in., \$8.00; 4-5 ft., \$7.00; 5-6 ft., \$9.00.

Scotch (*Pinus sylvestris*). One of the fastest growers. Short, silvery green needles. 24-30 in., \$3.25; 30-36 in., \$4.00; 3-4 ft., \$5.00.

White (*Pinus strobus*). A beautiful cone-bearing Evergreen. Long, soft bluish green needles; large brown ornamental cones. Vigorous grower, long-lived. One of the largest Pines. 18-24 in., \$3.00; 24-30 in., \$3.50; 30-36 in., \$4.50; 3-4 ft., \$5.50; 4-5 ft., \$7.00; 5-6 ft., \$9.00.

Canadian Hemlock

FOR YEAR 'ROUND BEAUTY

SPRUCE (*Picea*)

Especially desirable as specimens, but may be used as live, outdoor Christmas trees, screens and as a background for smaller type plants. Some used temporarily in foundation plantings but we do not recommend them for permanent plantings of this type as they soon outgrow the space unless kept pruned severely.

Black Hills (*Picea glauca densata*). Similar to Norway Spruce, but more compact and better suited for foundation plantings. 15-18 in., \$2.75; 18-24 in., \$3.50; 24-30 in., \$4.25; 30-36 in., \$5.00.

Norway (*Picea excelsa*). Best known of all the Spruces. Easily transplanted, fast thrifty growers. Long-lived and adapted to many uses. Retains its dark green foliage throughout the year. 18-24 in., \$3.00; 24-30 in., \$3.75; 30-36 in., \$4.50; 3-4 ft., \$5.50. Write for quotations on larger sizes.

YEWS (*Taxus*)

The tendency in Evergreen plantings is towards better, dwarf, slow-growing, permanent plants rather than fast-growing less permanent ones which frequently become outgrown and ineffective within a few years. No group of Evergreens has created such interest in recent years as the Yews—now by far the most important family of Coniferous Evergreens.

Great interest in Yews is easily accounted for—their rich dark green color, which is maintained at all seasons, in partial shade or full sunlight; variation of form, ease of training and pruning—also their adaptability to various soils and uses. Another prized feature of Yews is their scarlet berries, which frequently are borne in great profusion. They respond to shearing and can be kept at almost any desired shape and height.

Yews may be had with following habits of growth: Pyramidal, Columnar, Semi-Upright, and Spreading. These types have a place in modern landscape plantings.

Hatfield (*Taxus media hatfieldi*). Broad, columnar shape, flared at top. More dwarf than Hicks'. 15-18 in., \$5.00; 18-24 in., \$7.00; 24-30 in., \$9.00; 30-36 in., \$12.00.

Hicks' (*Taxus hicksi*). An upright, columnar grower. Compact dark green foliage which retains its lustrous green color throughout the year. Entirely hardy and adapted to wide range of soils, but like all Yews, it responds to a deep fertile soil. Suitable for planting at entrances and corners in foundation plantings. Also may be used as specimens in formal gardens and other positions requiring a columnar type plant. 15-18 in., \$4.00; 18-24 in., \$5.50; 24-30 in., \$7.50; 30-36 in., \$9.00; 36-42 in., \$11.00.

Japanese Pyramidal (*Taxus cuspidata capitata*). The normal growing habit of this Yew is pyramidal—broad at the base and tapering towards the top. 18-24 in., \$6.00; 24-30 in., \$8.00; 30-36 in., \$10.00; 36-42 in., \$12.50; 42-48 in., \$16.00.

Japanese Spreading (*Taxus cuspidata*). Wide spreading habit, the width exceeding height. Dark green foliage and red berries. Adapted to both full sunlight and partial shade, making it the most useful of all spreading type Coniferous Evergreens. Frequently used in foundation plantings with its companion, Upright Hicks'. Priced by spread. 15-18 in., \$4.50; 18-24 in., \$6.50; 24-30 in., \$8.50; 30-36 in., \$11.00.

NOTE: Write for quotations on large specimens in Yews.

MODEL YEW FOUNDATION PLANTING For a Small Home

Graceful, Permanent, Disease-Resistant

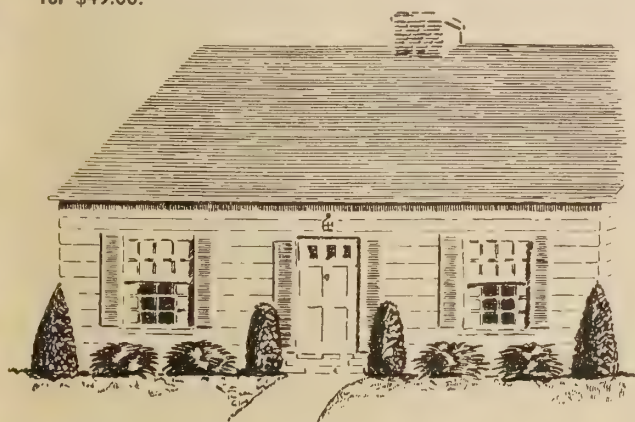

One of the best Coniferous Evergreens, costing more than faster growing types, but adapted to both full sunlight and partial shade and growing into permanent beauty.

2 Hicks' Yew. For each side of entrance.

4 Japanese Spreading Yews. Under windows.

2 Japanese Pyramidal Yews. To be used at corners.

All 8 Yews in the 15-18 in. Home Owners' Size for \$35.00. This group may be had in the 18-24 in. General Landscape Size for \$49.00.

WAYNESBORO, VIRGINIA

Norway Spruce

Japanese Pyramidal Yew

Hicksi Yew

Japanese Spreading Yew

Azalea Group Planting

BROAD-LEAVED EVERGREENS

Many offer a double and triple attraction by flowering and fruiting, the berries remaining on well into winter.

Dwarf types—such as Azaleas, Boxwood, Hollies, Ligustrums, Abelia, and Rhododendrons—are frequently used in foundation plantings, borders, hedges, and as specimens, while larger growing ones are usually planted as a background for lower growers.

Broad-leaved Evergreens are transplanted dug with ball of earth with exceptions noted on small Boxwoods indicated by *.

AZALEAS

The Pride of the Spring Garden

(See page 25 for Springtime Azalea Scene at our Boxwood Garden Shop.)

Starting to blossom in early March in the Deep South, continuing the season until June in the southern part of the New England States. The varieties we offer have been selected not only for color and abundance of bloom, but for hardiness and general adaptability to outdoor culture in the area we serve.

In response to increased demand for Broad-leaved Evergreens, production has been stepped up in better Azaleas and New Hybrid Rhododendrons in our branch nursery, **Azalea Gardens**, Route 151, between Amherst and Afton, Virginia. Azaleas and Rhododendrons have been used generously in landscaping the grounds surrounding **Boxwood Garden Shop**, where blooming size plants may be picked up at any season and carried home in your car.

Culture: Until it became generally known that Azaleas require an acid soil, an abundance of humus and a uniform moisture supply, they were considered difficult to grow, but with proper culture, it is now possible to have beautiful Azaleas in almost any soil. **Rho-Za-Grow** supplies not only acidity, but necessary plant food. Uniform moisture and humus may be retained with a mulch of **Peat Moss** or even decomposed sawdust.

DWARF AND SEMI-DWARF EVERGREEN AZALEAS

Amoena (Kurume). Rosy purple flowers in dense masses. Hardy and early flowering. One of the well-known Kurume Azaleas grown over a wide area.

Corsage (Gable). Large, single orchid blooms. Originated by the famous Azalea hybridizer, Mr. Gable of Pennsylvania. Very hardy.

Fedora. (Kaempferi Hybrid). Prize-winning salmon-rose. Hardy.

Gerardina Vuyk (Vuykiana). Salmon-pink, deeper center. Holland Hybrid.

Helena Vuyk (Vuykiana). Deep carmine-rose. Holland Hybrid.

Hexe (Kurume). Midseason; large, deep red flowers. Low grower.

Hinodegiri (Kurume). Bright carmine-red flowers produced so profusely as to completely cover the plant when in full bloom. Dense, compact bush broader than high with rounded green leaves. Most extensively planted garden Azalea.

Hinomayo (Kurume). One of the best early soft pinks. Hardy, strong grower, profuse bloomer.

Macrantha (Kurume). Large salmon-red. Plants similar to Hinodegiri, but blooming a month later, extending the season. One of the most hardy Dwarf Evergreen Azaleas.

Pink Pearl (Kurume). Deep tinted pink. Vigorous. Excellent foliage.

Rose Indica (Ledifolia rosea). Similar to White Indica, except flowers are splashed with rose. The Indicas are popular throughout the South. Rose Indica and White Indica are among the hardiest of this family, grown as far north as New York.

Snow (Kurume). Large, snow-white flowers. Compact grower, profuse bloomer. Thick, glossy green foliage. Blooms with Hinodegiri. Valuable, hardy garden variety.

Sunrise (Kurume). Brilliant red with copper suffusion. Good early Azalea.

Sweet Brier (Kurume). Beautiful rose-pink. Hardy, compact grower, abundant bloomer.

White Indica (Ledifolia alba). Abundance of large, white flowers showing occasional scarlet splashes. Hardy, strong grower. Popular in the Magnolia and Middleton Gardens of Charleston, South Carolina.

Wilhelmina Vuyk (Vuykiana). Large-flowering white Holland Azalea.

PRICES ON DWARF AND SEMI-DWARF EVERGREEN AZALEAS

FLAME NATIVE DECIDUOUS AZALEA

(Calendulacea)

Most popular of the native American Azaleas. Deciduous plants maturing at 3 to 4 ft. Large, Tulip-like flowers appearing in May and June. Practically every shade of yellow from lemon to copper-gold and orange, mingled in a lovely harmony of color. Perfectly hardy, easily transplanted and cultivated. One of our best sellers. Excellent as a background for low-growing Azaleas.

EVERGREEN BARBERRY

Julianae (Berberis julianae). Most popular of the upright Evergreen Barberries. Beautiful, large, dark, glossy green leaves which turn attractive bronze color during winter. Yellow flowers in spring. Purple berries. Very hardy.

Verruculosa (Berberis verruculosa). Best of the low-growing dwarf Barberries. Thick, glossy evergreen foliage, silvery underneath. Hardy. Blue berries. 12-15 in., \$2.75; 15-18 in., \$3.50.

ABELIA GRANDIFLORA

Also listed and illustrated under Shrubs, page 25, as small sizes may be transplanted, dug without ball. During severe winters it loses much of its foliage in northern part of Virginia and farther north, but is reasonably hardy and even if affected by extreme cold, it comes right back, more beautiful than ever, blooming the first season. This beautiful Broad-leaved Evergreen is planted in almost every southern garden and frequently found as far north as New York. Offered in balled and burlapped plants as follows: 2-3 ft., \$3.50; 3-4 ft., \$4.50.

Azalea, Hinodegiri

Beautiful and Colorful Throughout the Year

BOXWOOD (*Buxus*)

The first group of Broad-leaved Evergreens to be extensively used as landscape material in America. The old Boxwood gardens of Virginia and other states of the South are recognized as being among the most interesting gardens in America and are visited annually by thousands of tourists.

Boxwoods are long-lived, slow to medium growers, beautiful throughout the year. They have many uses in both old and modern gardens, are especially noted for the bordering of driveways, walks, perennial beds, Azalea groups, and other Broad-leaved Evergreens and flowering plants. The taller species are even used as screens. Boxwoods always carry a certain amount of dignity, yet can be effectively used in the small, modern garden. There are many varieties; we offer the most popular, practical ones.

BOXWOOD, Standard (*Buxus sempervirens*). Often referred to as American or Standard Box because of its general use. No doubt more of this useful type is grown than all other varieties combined. Medium grower, maturing at a height of 15 ft. or more, with equal spread. Slender, pointed, dark green leaves, plant pyramidal in form when young, broader as it becomes older. Sometimes confused with its more dwarf companion, *Buxus suffruticosa*, which is a close rival for first place. *Buxus sempervirens* has many uses and has always been in great demand. Especially useful as specimens, in hedges and borders. Requires fertile soil and good drainage.

	1 to 10 Each	10 to 25 Each	25 to 50 Each	50 or more Each
* 4- 6 in., 3-yr., bedding size		\$0.40	\$0.35	\$0.30

* 8-10 in., 5-yr.85	.75	.70	.65
* 10-12 in., 6-yr.	1.20	1.00	.90	.85
* 12-15 in., 7-yr.	1.50	1.30	1.20	1.10
* 15-18 in., specimens BB.	4.00	3.75		

NOTE: Boxwood sizes indicated by * dug with puddled roots; other sizes Balled and Burlapped.

BOXWOOD, Dwarf English (*Buxus suffruticosa*). This is the round-leaved, slow-growing, compact Boxwood frequently found on old estates here in Virginia. Specimens several hundred years old having a spread of 8 to 10 ft. are still the pride of many of the famous gardens but the enormous prices offered for these old specimens have moved many of them to new homes. Young plants increase in value each year and serve to make the garden more beautiful.

	1 to 10 Each	10 to 25 Each	25 to 50 Each	50 or more Each
* 3- 4 in., 2-yr., bedding size		\$0.40	\$0.35	\$0.30

* 6- 8 in., 6-yr., transplanted85	.75	.70	.65
* 8-10 in., 7-yr., transplanted	1.20	1.00	.90	.85
* 10-12 in., 8-yr., transplanted	1.75	1.50	1.40	

NOTE: Above Dwarf English Boxwood sizes indicated by * dug with puddled roots.

Boxwood, Blue Pyramidal (*Buxus sempervirens glauca*). Its tall, pyramidal habit and beautiful blue-green foliage make it sure to become better known and more widely used. 15-18 in., \$3.00; 18-24 in., \$4.00; 24-30 in., \$6.00.

Boxwood, Oriental (*Buxus japonica*). Fast grower, large, light green foliage. Especially adapted to the South, where climate is too hot for other varieties. 36-42 in., \$12.00.

LARGE SPECIMEN BOXWOODS

Offered in addition to sizes listed in this catalog. The value of these plants is determined by their size, shape and compactness. It is preferable that the planter see the plants, make selections and be furnished with prices.

Roundleaf Holly

Dwarf English Boxwood

CAMELIAS. One of the South's well-known Broad-leaved Evergreens. Noted for its gorgeous blossoms in various colors. May be grown along Atlantic Seaboard as far north as Washington, D. C., and extensively grown in Norfolk area of Virginia. Our collection of ten or more varieties—made up from the most hardy *Sasanqua* and better Japanese—offered in Pink, Red and White. 12-18 in., \$3.50; 18-24 in., \$4.50; 24-30 in., \$6.00.

ERICA gracilis. Beautiful, hardy, low-growing evergreen scarcely more than 12 in. in height, and 18 in. spread. Dark evergreen foliage. Entire plant covered with profusion of rose-colored, fragrant, tubular flowers from January until April. Even without flowering, this charming little plant would be worthy of a place in your garden. Ideal for the rock garden or border. 2-yr., \$1.20 each in lots of 1 to 10; 10 or more, \$1.00 each.

EUONYMUS patens. The most satisfactory Euonymus. Low, dwarf grower, hardy. White flowers in spring, followed by red berries which remain on until well into winter. Excellent foundation plant. 15-18 in., \$2.25; 18-24 in., \$3.00; 24-30 in., \$3.75.

KALMIA latifolia (Mountain Laurel). Well-known native evergreen. Dark glossy, evergreen foliage. Masses of pink Azalea-like flowers in May. Adapted to acid soil conditions, like the Rhododendrons and Azaleas. 18-24 in., \$3.75; 24-30 in., \$4.75.

HOLLY (*Ilex*)

Well-known group of Broad-leaved Evergreens. Useful in garden as well as for Christmas decoration material. Glossy, dark green foliage and ornamental berries. The use of **Rho-Za-Grow** is recommended and the planting of groups of three or more for successful fruiting.

American (*Ilex opaca*). Adapted to wide range of soil and climate. In many places will grow into specimen trees 25 ft. or more in height but often kept sheared in the garden to small specimens. White flowers in early spring. Red fruit on the berry-bearing plants serves as decoration throughout winter. 2-3 ft., \$9.00. Specimens 6 ft. up quoted on request.

East Palatka (*Ilex opaca*, East Palatka). Hybrid American Holly. Smooth-edged, evergreen leaves. Deep red berries, borne in heavy clusters, hang on during winter. 18-24 in., \$6.50; 2-3 ft., \$9.00; 3-4 ft., \$12.00.

Boxleaf (*Ilex convexa*). Dwarf, compact grower. Most effective dark, glossy green, convex foliage; blue berries. One of the best dwarf evergreens for foundation plantings. 12-15 in., \$3.50; 15-18 in., \$4.50.

Oriental (*Ilex crenata*). Differs from American by having small, thick, dark green foliage, blue-black berries. 18-24 in., \$4.50; 24-30 in., \$6.00; 30-36 in., \$7.50.

Round-leaf Oriental (*Ilex crenata rotundifolia*). Larger, rounder leaves than *Ilex crenata*, making a broader more compact plant. Resembles Boxwood and used in similar manner. Hardy, low, slow-growing. 12-15 in., \$3.00; 15-18 in., \$4.00; 18-24 in., \$5.00.

HOLLYGRAPE, Oregon (*Mahonia aquifolium*). Holly-like leaves turning to glossy bronze during winter. Yellow flowers in summer, blue berries in winter. 15-18 in., \$3.25; 18-24 in., \$4.00; 24-30 in., \$4.75.

Ligustrum Lucidum

BROAD-LEAVED EVERGREENS

LIGUSTRUM lucidum. One of the South's most popular Broad-leaved Evergreens. Ideal for foundation plantings, borders, and groups. Adapted to both full sunlight and partial shade. White flowers in summer, blue berries throughout winter. Not often used north of Virginia. 18-24 in., \$3.50; 24-30 in., \$4.25.

MAGNOLIA grandiflora. Famous southern evergreen flowering tree. Can be satisfactorily grown in most parts of Virginia, but not hardy much farther north. Tree grows to be quite large. Tulip-like, very fragrant, large, pure white flowers, followed by pods of bright red berries. 18-24 in., \$4.50; 2-3 ft., \$6.00; 3-4 ft., \$8.00. Write for quotations on larger specimens.

NANDINA domestica. Used throughout Virginia, and near the coast farther south. Small light green foliage in summer, turning to beautiful autumn red, continuing so throughout winter. White blossoms in summer, bright red berries in fall and winter. Useful and beautiful. 15-18 in., \$3.00; 18-24 in., \$4.00.

OSMANTHUS fortunei. Holly-like evergreen leaves; creamy white, fragrant flowers in spring, followed by bluish berries. Thrives in sunlight or partial shade in Virginia and states farther south. Useful in foundation plantings or as specimens. 15-18 in., \$3.00; 18-24 in., \$4.00; 2-3 ft., \$5.00.

VIBURNUM

rhytidophyllum

(Leatherleaf Viburnum). One of the most hardy of all Broad-leaved Evergreens. Thick, leather-like, evergreen foliage; creamy white flowers in May and June followed by clusters of bright red berries during July and August, adding to the merits of this valuable plant. Grows to a height of 6 to 8 ft. May be used in foundation plantings or evergreen shrub borders. Thrives in full sunlight, but gives best results in partial shade. Merits more extensive use. 18-24 in., \$3.50; 24-30 in., \$4.25; 30-36 in., \$5.00; 3-4 ft., \$6.50.

Pyracantha Gibbsi

PYRACANTHA (Firethorn)

Evergreen foliage, white flowers in May, bright red or orange berries. Deserves a place in every garden—in borders, hedges or as specimens. Make your selection from the three following choice varieties:

Gibbsi. Medium, upright, compact grower. Bright red berries from late fall until spring.

Lalandi. Tall, irregular grower. Large orange-colored berries, hanging on well into winter. One of the most hardy Pyracanthas.

Rogersi. Compact, low-growing type. Bright red berries early to late fall. Prune when planting.

Pyracantha prices—in one-gallon cans: 15-18 in. plants, \$2.75; 18-24 in., \$3.50.

RHODODENDRONS

Would be worthy of a place in the garden even without their gorgeous bloom. However, few plants are more beautiful when blossoming under favorable conditions.

Culture: Apply 2 to 3 lbs. Rho-Za-Grow and 3 to 6 lbs. Peat Moss per plant when planting, repeating application annually. No additional plant food or soil conditioner required.

NATIVE RHODODENDRONS

Catawbiense. Native Rhododendron. Low, compact. Round-tipped, glossy, evergreen foliage. Gorgeous purplish red flowers in May. Frequently used in front of Maximum in mass plantings. 18-24 in., \$4.50; 2-3 ft., \$6.00.

Maximum. Tall, strong grower. Large leaves, light pink flowers in June and July. Useful as a background in group plantings with low-growing types. 18-24 in., \$4.00; 2-3 ft., \$5.50; 3-4 ft., \$7.00.

HYBRID RHODODENDRONS

Before restrictions were placed on importation of Holland grown Hybrid Rhododendrons, these beautiful Broad-leaved Evergreens were found in the better landscape plantings of the East. Now American Nurserymen are producing Hybrids in limited quantities. We offer following selection of better varieties:

Dr. H. C. Dresselhuys. Bright red. Late.

Dr. V. H. Rutgers. Midseason red.

Parsons' Gloriosum. Rosy lilac. Late.

Roseum Elegans. Midseason. Rose tinted lilac.

Salvina. Late carmine.

Van der Hoop. Rose-pink. Late.

15-18 in., \$6.50; 18-24 in., \$8.00; 24-30 in., \$10.00.

Pyracantha Lalandi

WAYNESBORO NURSERIES

Waynesboro Flowering and Ornamental Trees

Pink Dogwood

Especially useful as specimens and as border backgrounds for flowering shrubs. Used in plantings on the roadside, school and industrial plant grounds, on large estates and as shade trees on the grounds of low, ranch type homes.

NOTE: Flowering Trees quoted dug without ball unless indicated BB., meaning Balled and Burlapped.

DOGWOODS (Cornus)

No native tree is more admired and extensively used than the Dogwood, which is a shapely, dwarf, rapid grower, blooming when quite young. Beautiful as specimens and especially effective at edge of woodland under taller growing trees or as a border to an evergreen background, affording a most pleasing effect in spring when in full blossom.

The Dogwood may be had in pure white or deep pink. Two colors combined in group plantings produce a striking springtime picture. Flowering season will vary, but here in Virginia is usually late April, just ahead of Apple-blossom time. Four-petal blossoms average 2 inches across. Brilliant autumn foliage and red berries which carry well into winter. Somewhat more difficult to transplant than the average tree, therefore we offer dug without ball (NB) in only the 18-24 in. and 2-3 ft. size. We also offer 2-3 ft. and larger sizes balled and burlapped (BB), minimizing risk in transplanting.

Dogwood, Pink Flowering (Cornus florida rubra). Sometimes referred to as Red Flowering. Outstanding flowering tree. Habits of growth identical to White Flowering other than producing dark pink flowers. 18-24 in., NB., \$2.75 each; 3 or more, \$2.60 each. 2-3 ft., NB., \$3.50 each; 3 or more, \$3.30 each. 2-3 ft., BB., \$4.50 each; 3 or more, \$4.25 each. 3-4 ft., BB., \$6.00 each. 4-5 ft., BB., \$8.00 each.

Dogwood, White Flowering (Cornus florida). Virginia's State Flower. This is the native White Dogwood admired by all who have seen it growing wild. Offered in nursery-grown, acclimated trees. 2-3 ft., NB., \$2.25 each; 3 or more, \$2.10 each. 3-4 ft., BB., \$4.50 each. 4-5 ft., BB., \$6.00 each. 5-6 ft., BB., \$8.00 each.

NOTE: Write for prices on larger BB. specimens in Pink and White Dogwoods.

APPLE TREES. Generally planted for fruit, but one of the most beautiful ornamental trees. A scene more picturesque than Apple trees in full blossom is difficult to imagine. Also satisfactory shade trees. Specimen trees, in choice varieties, selected for ornamental purposes, are twice transplanted and pruned so as to conform with the landscape. 6-yr., 8-10 ft., \$6.00 each; 3 or more, \$5.75 each.

ASH, European Mountain (Sorbus aucuparia). Valuable medium growing tree. Striking orange-scarlet berries. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

CHINESE SCHOLAR TREE (Sophora japonica). Also known as Japanese Pagoda Tree. Tall-growing, flowering tree. Creamy white flower panicles. 4-5 ft., \$4.00 each; 3 or more, \$3.75 each.

FLOWERING CRAB TREES (Malus)

This class of small, spring flowering trees has been coming into its own in recent years. Now available in a large assortment of varieties blossoming in April and May. Effective in street plantings, on large and small home grounds, in parks, and for beautifying industrial plant surroundings. Make your selection from the better ones, as follows:

✓ **Almey** (Malus Almey). Huge blossoms of rich, glistening crimson. From a distance the tree has the appearance of a mass of flame. Produces in profusion small scarlet fruits which cling long after the leaves have dropped. Available only in 5-6 ft. size at \$3.75 each.

✓ **Dolgo** (Malus Dolgo). Single white. Red, edible fruit.

✓ **Eley's** (Malus eleyi). Red foliage resembling Japanese Blood-leaved Maple. Masses of red flowers followed by scarlet fruits which are excellent for jellies and pickles. Strong grower. Desirable as a specimen shade tree.

✓ **Hopa** (Malus Hopa). Bright pink flowers in profusion. Red fruits suitable for jellies and pickles. Good grower. Excellent as a specimen or as a green-leaved companion to the Eley's.

✓ **Oriental** (Malus floribunda). Pink buds, white flowers followed by yellow fruits. Good, low-growing tree.

✓ **Red Silver** (Malus Red Silver). Silver and red foliage. Crimson flowers, red fruit.

Sargent (Malus sargentii). White flowers, red fruit. Free flowering.

Prices on above Flowering Crabs with exception of Almey: 3-4 ft., \$2.25 each; 3 or more, \$2.10 each. 4-6 ft., \$2.75 each; 3 or more, \$2.60 each.

Bechtel's (Malus ioensis plena). Rather slow grower, semi-dwarf habit of growth. Large, double, bright pink flowers. Yellow fruit. Late bloomer. 3-4 ft., \$2.75 each; 3 or more, \$2.60 each.

Eleyi
Crab

Kwanzan Double Pink Cherry

FLOWERING CHERRY (Prunus)

So generally known and admired that detailed descriptions are unnecessary. Strong growers, frequently blooming first season after being transplanted. Blossoms literally cover the stems.

Kwanzan Double Pink. Upright grower. A large percent of the trees in the famous Potomac Basin planting in Washington, D. C. are of this type. 3-4 ft., \$3.75 each; 3 or more, \$3.50 each. 4-5 ft., \$4.50 each; 3 or more, \$4.25 each. Write for quotations on large BB Flowering Cherry—Pink and White.

Weeping. Differs from the Standard Flowering Cherry by being weeping in form. 5-6 ft. stem, blooming size specimens, \$12.00 each. Write for quotations on larger BB specimens.

FLOWERING PEACH (*Prunus persica*). Double Pink, Red and White. Striking, colorful tree for the spring garden, bursting into blossom two weeks ahead of Dogwoods. Double, long-lasting flowers cover the twigs, remaining on for ten days or more. For best results, prune severely immediately after blooming, before new growth starts. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each. 4-6 ft., \$2.75 each; 3 or more, \$2.60 each.

Flowering Peach, Weeping (*Prunus persica pendula*). Weeping form of this popular Flowering Tree. Offered in red only. 4-6 ft., \$3.00 each; 3 or more, \$2.80 each.

FRANKLINIA (*Franklinia alatamaha*). Rare slender tree with graceful branches. Large, fragrant white flowers with orange stamens from early August until frost. Begins blooming when quite young. 3-4 ft., BB, \$12.00 each. 4-5 ft., BB, \$15.00 each. 3-4 ft., without ball, \$6.00 each.

GINKGO biloba (*Maidenhair Tree*). Pyramidal tree with maidenhair-fern-like leaves. 5-6 ft., \$3.00 each; 2 or more, \$2.80 each. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each.

GOLDEN CHAIN (*Laburnum vossii*). Shrub-like tree with long hanging clusters of yellow flowers in May. 5-6 ft., \$4.50 each; 3 or more, \$4.25 each.

GOLDEN-RAIN TREE (*Koelreuteria paniculata*). Clusters of lemon-yellow flowers in mid-summer. Medium grower, maturing 20 to 30 feet. 5-6 ft., \$3.50 each; 3 or more, \$3.30 each.

HAWTHORN (Crataegus)

Paul's Scarlet Hawthorn (*Crataegus oxyacantha pauli*). Grows to 12 to 15 ft. Compact, uniform, shrub-like tree. Brilliant, rosy red, double flowers in June. Red berries. 3-4 ft., without ball, \$4.50 each; 3 or more, \$4.25 each. 4-6 ft., without ball, \$6.00 each. 4-6 ft., BB, \$12.00 each.

Washington Hawthorn (*Crataegus cordata*). White blossoms, scarlet autumn foliage. 3-4 ft., without ball, \$2.00 each. 4-5 ft., without ball, \$3.00 each.

LINDEN, American (*Tilia americana*). Large, green leaves. Fragrant, creamy white flowers. Good grower, uniform, shapely tree. Useful for specimens, on home grounds, street and park plantings. 5-6 ft., \$3.25 each; 3 or more, \$3.10 each. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each. 8-10 ft., \$5.00 each; 3 or more, \$4.75 each.

LINDEN, European Little-Leaf (*Tilia cordata*). Smaller leaves than the American, more dwarf, compact grower. Excellent shade tree for small grounds or planting on narrow streets. Available only BB specimens. Write for quotations.

MAGNOLIA, Japanese. Deciduous tree growing only 12 to 15 ft. high, branched from the ground. Tulip-like flowers in early spring just ahead of foliage. We offer two varieties, as follows: **Magnolia Soulangeana**, with pink flowers and **Soulangeana nigra** with purplish red flowers. 18-24 in., BB, \$4.50 each. 2-3 ft., BB, \$6.00 each. 3-4 ft., BB, \$8.00 each.

SERVICE BERRY (*Amelanchier canadensis*). Small, bushy, shrub-like tree. Pure white flowers appear early spring in advance of foliage. Red, juicy, delicious berries. Used extensively in Colonial Williamsburg gardens. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each.

SOURWOOD (*Oxydendrum arboreum*). Medium sized tree. Long, glossy green leaves turning brilliant red in late summer, making it one of the most beautiful autumn forest and lawn trees. Creamy white flowers during June and July. Unfortunately, this valuable tree is rather difficult to transplant, so we offer dug with and without ball. 5-6 ft., without ball, \$4.50 each; 3 or more, \$4.25 each. 6-8 ft., BB, \$12.00 each. 8-10 ft., BB, \$18.00 each.

TULIP TREE (*Liriodendron tulipifera*). Also known as Tulip Poplar. Large, stately, pyramidal, fast-growing, native tree. Fragrant, creamy, cup-shaped, Tulip-like flowers blotched orange. Spring planting recommended. 5-6 ft., \$3.00 each; 3 or more, \$2.80 each. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each. Large BB trees quoted on request.

MIMOSA (*Albizia julibrissini*). Dwarf-like, irregular, spreading grower. Lacy foliage. Pink, silky flowers in July and August. Purely a southern tree, not often used north of Virginia. Fast grower, early bloomer and most effective as a specimen or in groups on large grounds. 5-6 ft., \$2.75 each; 3 or more, \$2.60 each. 6-8 ft., \$3.75 each; 3 or more, \$3.50 each. Large BB specimens quoted on request.

REDBUD (*Cercis canadensis*). Beautiful, small tree which only recently has become recognized as one of our most valuable native flowering trees. Small pink flowers cover stems in early spring, before foliage appears. Effective in plantings with Dogwoods, around edges of forests, bordering lawn, in group plantings and as specimens. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each. 4-6 ft., \$2.50 each; 3 or more, \$2.35 each. 6-8 ft., \$3.75 each; 3 or more, \$3.50 each.

RUBY TREE (*Prunus, Thundercloud*). Red-leaved Flowering Plum. Valuable small tree for the lawn. Purplish red foliage in spring, retaining its color well throughout the summer. Early pink flowers; ornamental bright red fruits. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each. 4-6 ft., \$2.75 each; 3 or more, \$2.60 each.

Ruby Tree
(Red-leaved Flowering Plum)

Flowering Peach

Shade Trees

Good shade trees afford both comfort and beauty; in some instances, bloom, fruit and autumn coloring, as well as serve as a screen or background for other plantings. The following selection has been made with those qualities in mind. We are listing under "Flowering and Ornamental Trees" a group planted especially for ornamental effect. Both groups are planted for shade.

NOTE: Shade Trees are quoted dug without ball (NB) unless indicated BB, meaning Balled and Burlapped.

ASH, American White (*Fraxinus americana*). Strong grower, spreading and giving excellent shade, yet not so dense as to destroy grass beneath branches. Suitable for streets and campuses, as well as on lawns where space permits. 6-8 ft., \$4.00 each; 3 or more, \$3.75 each. 8-10 ft., \$5.00 each; 3 or more, \$4.75 each. 10-12 ft., \$7.00 each; 3 or more, \$6.60 each.

✓ **BEECH, American** (*Fagus americana*). This famous tree is denied more extensive use because of its being difficult to transplant. So we offer only balled and burlapped specimens. 5-6 ft., BB, \$12.00 each. 6-8 ft., BB, \$18.00 each. 8-10 ft., 1½-2 in. caliper, BB, \$30.00 each. Write for quotations on larger BB specimens.

BIRCH, Cut-leaved Weeping (*Betula alba pendula laciniata*). Slender tree with white bark, gracefully weeping branches, fern-like cut leaves, all of which combine to make it a most beautiful tree. May be used as a specimen or in tree groups. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

BIRCH, European White (*Betula alba*). Larger leaves and stiffer branches than the weeping type. Good shade tree as well as effective in group plantings. Young trees have grey bark which gradually changes to white. 5-6 ft., \$3.50 each; 3 or more, \$3.30 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each. 10-12 ft., \$9.00 each; 3 or more, \$8.60 each.

BIRCH, Clump European White (*Betula alba*). Same as European White other than having three or more stems from ground, forming compact clump. 5-6 ft., \$5.00 per clump; 3 or more, \$4.75 per clump.

White Birch, European

Chinese Elm

CUCUMBER TREE

(*Magnolia acuminata*)

Write for quotations on large BB specimens.

CATALPA bungei (*Umbrella Catalpa*). Small, umbrella-like tree suitable where space is limited. Seldom grows higher than 10 to 12 feet, with an equal spread. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each.

CATALPA speciosa (*Western Catalpa*). Fast growing, spreading tree. White summer flowers. Useful where quick effect is required. 6-8 ft., \$3.50 each; 3 or more, \$3.30 each. 8-10 ft., \$4.50 each; 3 or more, \$4.25 each.

ELMS (*Ulmus*)

The Elm comprises one of the best known and most extensively planted groups of shade trees, being adapted to almost all kinds of soil and climate. Easily transplanted, fast growers.

American (*Ulmus americana*). This famous shade tree adapted to numerous uses and localities. In many of our older cities trees with branches meeting across the street form a shaded archway. At its best when planted in parks and broad streets. 5-6 ft., \$2.35 each; 3 to 30, \$2.20 each; 30 or more, \$2.00 each. 6-8 ft., \$3.25 each; 3 to 30, \$3.00 each; 30 or more, \$2.75 each. 8-10 ft., \$4.00 each; 3 to 30, \$3.75 each; 30 or more, \$3.50 each.

CHINESE ELM (*Ulmus pumila*)

Resembles American Elm, but is more compact, has finer branches, less spread, and does not grow to be as large. Suitable for streets, on home grounds, and other places where a fast-growing, medium size tree is desired. Sends its roots deep into the soil, interfering very little with grass. One of the fastest growers of all shade trees; also one of the first to come out in leaf in the spring and last to lose its foliage in the fall.

	Each	3 to 30 Each	30 or more Each
5- 6 ft.	\$2.00	\$1.85	\$1.70
6- 8 ft.	2.75	2.60	2.40
8-10 ft.	3.75	3.50	3.30
10-12 ft.	4.75	4.40	

Crimson King Maple

SHADE TREES

GUM, Sour (*Nyssa sylvatica*). Medium to small grower. Noted for its scarlet foliage in autumn. Difficult to transplant, but a beautiful tree on the lawn. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. Write for quotations on larger BB specimens.

GUM, Sweet (*Liquidambar styraciflua*). Medium size, reasonably fast grower. Odd, cork-like bark. Large green leaves during summer, turning to beautiful golden and scarlet in fall, making it a very satisfactory shade tree, but like the Sour Gum, is difficult to transplant. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$5.00 each; 3 or more, \$4.75 each. 8-10 ft., \$6.50 each; 3 or more, \$6.25 each.

HACKBERRY (*Celtis occidentalis*). Small, compact, slow grower. Blue-black berries. 5-6 ft., \$3.50 each; 3 or more, \$3.30 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each.

HONEY LOCUST, Thornless (*Gleditsia triacanthos inermis*). Odd shaped, spreading tree with broad head, somewhat weeping branches, finely cut foliage. Tree filled with sprays of greenish white, fragrant flowers in early summer. Thornless. 6-8 ft., \$3.50 each; 3 or more, \$3.30 each. 8-10 ft., \$4.50 each; 3 or more, \$4.25 each.

Silver Maple

LARCH, European (*Larix europaea*). Low-branching, deciduous, evergreen-like tree. Branches slender, tips pendulous. Soft light green leaves which resemble short needles of a Pine. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each.

MAPLE (Acer)

This group is well-known and extensively planted as Maples can be satisfactorily grown in a large part of this country. Of numerous varieties, we offer the most choice ones as follows:

NEW! MORaine LOCUST

(Patent No. 836)

Fast-growing Hardy Long-lived Seedless

Especially adapted to new homes requiring quick shade, yet Moraine Locust is a good tree—hardy, long-lived, drought-resistant, and will grow in a wide range of soil and climate. Due to good shape of tree and fine foliage, enough light filters through to permit excellent lawn. The Moraine is sterile, so there are no unsightly seed pods to clean up in the fall. 5-6 ft., \$6.00 each; 3 or more, \$5.75 each. 6-7 ft., \$8.00 each; 3 or more, \$7.65 each.

Thornless Honey Locust

MAPLE - CRIMSON KING

(*Acer platanoides nigra*) (Pat. No. 735)

Recent Introduction from Europe

Brilliant New Tree. Sport of well-known Norway Maple. New, tender foliage crimson, turning bronze as leaves mature. Habits of growth similar to Norway. For color accent all summer, plant Crimson King. 5-6 ft., \$6.25 each. 7-8 ft., \$7.50 each.

Japanese Blood-leaved (*Acer palmatum atropurpureum*). Attractive, ornamental, shrub-like tree. Bright red foliage early spring, copperish red during summer, turning bright red during late fall. As more

transplanting risk is involved than in other Maples, we offer balled and burlapped. 18-24 in., BB, \$9.00 each. 24-30 in., BB, \$12.00 each. 30-36 in., BB, \$16.00 each.

Norway (*Acer platanoides*). Especially suited for street planting and on grounds of small homes. As it makes only a medium size tree, can be used where space does not permit larger trees such as Sugar Maple and American Elm. Large, dark green foliage. Dense, spreading. Rather slow grower. 5-6 ft., \$3.75 each; 3 or more, \$3.50 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each.

Scarlet (*Acer rubrum*). Medium grower. Light green foliage generally turning scarlet in fall. Not quite as dense as Norway. 5-6 ft., \$3.75 each; 3 or more, \$3.50 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each.

Norway Maple

SHADE TREES

OAK (Quercus)

For permanent shade, few trees excel the Oaks, which are long-lived, sturdy and stately. More difficult to transplant than some shade trees and slower in becoming established. Reasonably fast growers, becoming more valuable with age. Write for quotations on larger BB specimens in varieties offered below; also English White, Laurel, Red and Willow Oaks.

Austrian Turkey (*Quercus cerris*). Tall tree somewhat resembling White Oak; faster grower. Suited to parks and other areas where large trees may be accommodated.

Bur (*Quercus macrocarpa*). Large grower. Foliage dark green, usually shiny above, grayish beneath, turning yellow or brown in fall.

Chestnut (*Quercus montana*). Tall, rather slender grower with foliage less dense than Pin Oak. Most useful in groups with other varieties.

Pin (*Quercus palustris*). The most extensively planted Oak because it lends itself to planting on narrow streets and small home grounds. Also useful in parks, bordering driveways and almost anywhere a medium size shade tree is required. Very uniform, pyramidal grower. Large, glossy green foliage turning red in fall—making tree ornamental as well as affording desirable shade.

Scarlet (*Quercus coccinea*). Similar to Red Oak in general appearance and habit of growth; foliage somewhat more serrated and turns to more uniform scarlet in fall. Beautiful, satisfactory tree.

White (*Quercus alba*). Well-known, native American White Oak. Rather difficult to transplant, but makes a beautiful tree, especially when planted in groups in parks or on large estates. Colorful autumn foliage.

Prices on above Oaks: 6-8 ft., \$6.00 each; 3 or more, \$5.75 each. 8-10 ft., \$8.00 each; 3 or more, \$7.60 each.

WALNUT, Black (*Juglans nigra*). See page 23 for sizes and prices.

WEeping WILLOW (Salix)

Babylon Weeping (*Salix babylonica*). Beautiful weeping tree. Especially suited for planting near streams, but can be grown on well drained soil.

Golden Weeping (*Salix niobe*). Graceful, weeping tree. Light green leaves, golden yellow bark.

ThurloW Weeping (*Salix elegantissima*). Vigorous, more upright grower than Babylon Weeping. Desirable for street planting, as well as on lawns.

Prices on above Weeping Willows: 5-6 ft., \$2.25 each; 3 or more, \$2.10 each. 6-8 ft., \$3.00 each; 3 or more, \$2.80 each. 8-10 ft., \$4.00 each; 3 or more, \$3.75 each.

NOTE: Write for prices on large, specimen BB Shade Trees.

Lombardy Poplar

LOMBARDY POPLAR

(*Populus nigra italica*). Suitable as a background, along driveways, screening off out-buildings and other unsightly objects. 5-6 ft., \$1.25 each; 3 to 30, \$1.10 each; 30 or more, 95c each. 6-8 ft., \$1.50 each; 3 to 30, \$1.25 each; 30 or more, \$1.10 each.

Write for quotations on larger size. See page 24F for Bolleana Poplar and Oriental Plane.

Moraine Locust

Pin Oak

MAPLES—Continued

Schwedler's Red-leaved (*Acer platanoides schwedleri*). Symmetrical tree of Norway family. Leaves bright reddish purple in spring, turning deep bronzy green in summer. 5-6 ft., \$4.00 each; 3 or more, \$3.75 each. 6-8 ft., \$4.75 each; 3 or more, \$4.50 each. 8-10 ft., \$6.25 each; 3 or more, \$6.00 each.

Silver (*Acer dasycarpum*). Especially popular because of being a fast grower. Light green foliage slightly silver underneath. Trees grow to be larger and more spreading than Norway and should be given more space. Excellent for broad streets and large home grounds, as well as useful in public parks. 6-8 ft., \$3.50 each; 3 or more, \$3.30 each. 8-10 ft., \$4.50 each; 3 or more, \$4.25 each. 10-12 ft., \$6.00 each; 3 or more, \$5.75 each.

Sugar (*Acer saccharum*). Native of the East, found growing in forests. In some localities the trees are tapped for sugar water which is boiled into syrup and maple sugar. Beautiful autumn colored foliage in shades of gold and scarlet. Tall, pyramidal shape requiring more space than its cousin, the Norway. 5-6 ft., \$3.75 each; 3 or more, \$3.50 each. 6-8 ft., \$4.50 each; 3 or more, \$4.25 each. 8-10 ft., \$6.00 each; 3 or more, \$5.75 each.

Babylon Weeping Willow

World's Finest Patented Everblooming Hybrid Tea **ROSES**

Approved as Leaders in All-America Selections

TOP FIVE ALL-AMERICA SELECTION WINNERS

2-Year, Blooming Size Plants

One each—total five Roses as illustrated on this page for \$10.95.

ROSE PLANTING INFORMATION

Dormant Roses planted later than April 15 should be shaded until buds break and new leaves become half normal size. Otherwise hot sun frequently shrivels stems, resulting in loss of plant.

MIRANDY

(Patent No. 632.) A gorgeous, fragrant red Rose which takes its place with the finest red Roses of the world. Long, pointed buds. Full-bodied fragrance. \$2.00 each.

TIFFANY

(Patent No. 1304). 1955 All-America Selection Winner. Beautiful phlox-pink blooms of top quality. Long-pointed in the bud, with petals of heavy texture. Double, perfectly formed flowers on long stems. Outstanding fragrance. Very vigorous. \$2.75 each.

MOJAVE

(Patent No. 1176). Radiant orange is the dominant color, highlighted by flame-like tones of scarlet and vermilion. Vigorous bush produces amazing numbers of beautiful, long, tapering buds. The finest orange-colored Rose yet introduced. \$2.75 each.

CHRYSLER IMPERIAL

(Patent No. 1167). Long, tapered buds and very large blooms of exhibition form. Vivid crimson with deeper overtones. A lovely new Rose of compact, sturdy habit. \$2.50 each.

PEACE

(Patent No. 591). Blend of canary-yellow, gold, cream, pearly white and pink. Vigorous grower, shining dark green foliage. One of the best and most beautiful Roses. \$2.50 each.

Circus, Floribunda

Top Level All Patented New Everblooming GRANDIFLORA and FLORABUNDA ROSES

**FIVE TOP-LEVEL PATENTED
GRANDIFLORA AND
FLORIBUNDA ROSES
As Illustrated on This Page
One Each—Total 5 2-Year,
Blooming Size Plants for
\$11.20.**

**Roundelay,
Grandiflora**

2-Year, Blooming Size Plants

Grandiflora is a brand new class of Roses, produced by crossing Hybrid Tea with Floribunda, combining the best features of both—bud form, long-lasting bloom, superb cutting stems of Hybrid Teas and free blooming characteristics of Floribundas. Both Grandifloras and Floribundas are vigorous, free bloomers. Effective in the shrub border, foundation planting, groups, beds, or bordering walkways and driveways.

Circus. (Patent No. 1382). Floribunda. The only 1956 All-America Selection Winner. Makes a spectacular show of changing colors—yellow, orange, scarlet, buff, pink and red, with yellow being the predominant color. Fragrant blooms, perfectly shaped, borne in great profusion on sturdy stems. Fine for cutting. Bush compact and medium low-growing. **\$2.50 each.**

Buccaneer. (Patent No. 1119). Grandiflora. One of the most brilliant, intense yellow Roses. Holds its color well. Vigorous, free-branching bush producing an abundance of flowers. **\$2.50 each.**

Queen Elizabeth. (Patent No. 1259). Grandiflora. All-America Winner for 1955. Clear, glowing blooms are a beautiful blend of soft carmine-rose and dawn-pink. Deep green, heavily textured, glossy foliage. The fragrant flowers are borne on long, almost thornless stems, and hold up well when cut. Exceptionally vigorous, disease-resistant plants. **\$2.75 each.**

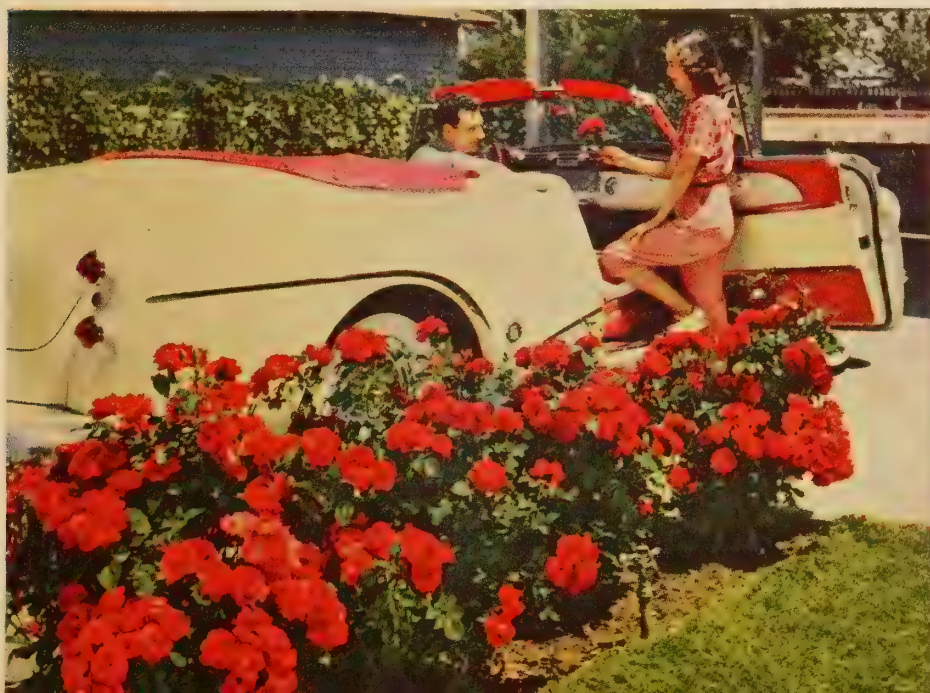

Redcap. (Patent No. 1292). New bright red Floribunda. Flowers and bloom clusters are large. They make a great display in the garden; also fine for cutting. Very sturdy plant of medium size. **\$2.25 each.**

Roundelay (Patent No. 1280). Distinctive, new Red Grandiflora. The satiny brilliant red blooms display all the fine form of the best Hybrid Tea, but there will be many more. Extremely vigorous, easy-to-grow plant. **\$2.75 each.**

**Buccaneer,
Grandiflora**

Redcap, Floribunda

**Queen Elizabeth,
Grandiflora**

Popular FLORIBUNDAS

For Masses of Bloom All Summer

Fashion

Fashion. (Patent No. 789). The buds of Oriental red open slowly into miniature Hybrid-Tea-like blooms of luminous coral-pink, overlaid with gold. Constant mass of flowers throughout the season. **\$2.00 each.**

Floradora. The exquisitely formed buds of glowing orange-scarlet open to brilliant cinnabar-red, fully double flowers resembling a perfect little Camellia. Long-stemmed cut flowers retain their true color for a week or more. **\$1.50 each.**

Irene of Denmark. (Patent No. 889). A vigorous, hardy Floribunda of medium size with lovely buds and fully double blooms of ivory-white. **\$1.75 each.**

Goldilocks. (Patent No. 672). True golden yellow. The low, compact bush furnishes continuous masses of golden buds and many-petaled, long-lasting flowers. **\$1.50 each.**

Irene of Denmark

Floradora

Goldilocks

Popular Floribunda Offer
One each Fashion, Irene of Denmark and Goldilocks—Total Three Roses, 2-yr. Blooming Size, \$4.60.

Climbers

For a Mass of Color on Trellises, Arbors and Fences

Blaze. (Patent No. 10). Scarlet-crimson. Profusion of blossoms in June, also scattered throughout the fall. Hardy. **\$1.50 each; 3 or more, \$1.30 each.**

High Noon. (Patent No. 704). Yellow. Regional All-America Award Winner for mild climates. Believed to be as hardy as the average Hybrid Tea Rose. Constant masses of yellow, pointed buds and flowers throughout summer on long stems. Excellent for cutting and especially effective for trellises. **\$2.50 each; 3 or more, \$2.20 each.**

New Dawn. (Patent No. 1). First Rose ever to be honored with a U. S. Plant Patent and still an outstanding hardy, everblooming climber. Sport of the well-known Dr. Van Fleet. Flesh-pink. Blooms intermittently from May until frost. **\$1.50 each; 3 or more, \$1.30 each.**

Peace Climber. (Patent No. 932). Climbing sport of this popular Rose. Big lovely flowers of yellow, cream, white and pink. **\$2.00 each; 3 or more, \$1.75 each.**

Paul's Scarlet Climber. Vivid scarlet, semi-double blooms. Profuse bloomer. Most popular and widely planted red climber. **\$1.35 each; 3 or more, \$1.20 each.**

Blaze

Climbing High Noon

Something Special in Perennials

Hardy Perennial Verbena in Five Distinct Colors

Two-toned Pink, Purple, Cyclamen-Red,
Velvety Scarlet, and White

Best rock garden plant of all. Excellent for borders and covering banks. Blooms from early May until freezing weather, occasionally showing scattered blossoms on mild winter days.

While our collection of Hardy Verbenas survived the hard winter of 1954-55 with zero temperature, when much

other so-called hardy plant material was severely damaged, we have not had experience with their culture in colder climates. However, we believe this valuable perennial is certainly worth a trial, even if winter protection is necessary. This special collection of Verbenas produces many flowers throughout the long blooming season.

**60c each; 3 of any one color for \$1.65.
One each color—Total 5 plants for \$2.60.**

Verbena

Phlox Subulata

(Creeping Phlox)

Early spring-flowering type with pretty, moss-like, evergreen foliage which during the flowering season in April and May is hidden under masses of bloom. Excellent plant for rockery and border; invaluable for carpeting the ground.

Alba. Pure white. Neat, compact plant.

Astro. Deep orchid-rose.

Blue Hill. Uniform, compact. Showy, blue flowers.

Crimson Beauty. New cyclamen-red with small carmine center.

Emerald Cushion. Compact dark green foliage. Masses of light blue flowers.

Lilacina. Free-flowering, lilac-colored.

Phlox Subulata Prices: 45c each; 3 of one variety for \$1.20; 12 for \$4.50. Mixed Colors: 12 for \$3.85.

ROCK GARDEN COLLECTION

Plant Creeping Phlox Collection, consisting of 4 each of above six varieties—Total 24 Plants—for \$8.65.

Phlox Subulata—See Page 45

EXHIBITION HARDY GARDEN MUM COLLECTION

One each of six Mums as illustrated—Total Six Strong, Two-Year Plants, \$2.95. Two each—total 12 Mums, \$5.75. Priced separately at 60c each.

1. Bonfire
2. Lavender Lady
3. Algonquin
4. Red Velvet
5. Olive Longland
6. White Cloud

Hardy PERENNIALS

For best effect, plant three or more of a variety. You may not have room for shade trees, evergreens, shrubs, or even Roses, but you can use effectively arranged perennials in spaces too limited for other ornamentals.

*Suitable for Rock Gardens

HARDY GARDEN CHRYSANTHEMUMS

Algonquin. Showy clear golden yellow, double flowers. September.

Argonne. Rich purple. Early October.

Autumn Lights. Coppery bronze. Semi-double. September.

Bonfire. Decorative Pompon, bright red. Late September.

Fleur. Double rose-wine. Late September.

Joan Helen. Semi-double crimson-purple. Late September.

Judith Anderson. Brilliant yellow button. September.

Lavender Lady. Well-known lavender. Late September.

Mandalay. Deep orange-bronze. Early October.

October. Beautiful Daisy-like single yellow. October.

Olive Longland. Huge, double salmon-orange. September.

Pink Spoon. Rose-pink spoon type. September.

Red Velvet. Reliable deep velvety red, Early October.

White Cloud. Good white. September.

Yellow Spoon. Soft yellow spoon type. Late September.

Prices on above Hardy Garden Chrysanthemums: 60c each; 3 of one variety for \$1.60; 12 for \$6.00, your choice of varieties.

FAMOUS CUSHION MUMS

Low-growing, spreading type, blooming from late July until freezing weather. Especially recommended for rock gardens and low borders. 60c each; 3 of one variety for \$1.60; 12 for \$6.00, your choice of varieties.

***Bronze Cushion.** Salmon-bronze. July.

***Pink Cushion.** Covered with pink blossoms from July until late fall.

***Red Cushion.** Similar habits to Pink Cushion, but red. Early August.

***White Cushion.** White. Early August.

***Yellow Cushion.** Bright glistening yellow. Early August.

Yellow Cushion Mum

HARDY ASTERS

Improved varieties. Bloom in September and October when the garden is most in need of color.

Mulberry. Mulberry-red. 4 ft.

Sunset. Glorious sunset-pink. Prolific bloomer. 3 ft.

Violetta. Rich, deep violet-blue. Vigorous. 3 ft.

Aster Prices, named varieties: 60c each; 3 of one variety for \$1.60; 12 for \$6.00, your choice of varieties.

Mixed Colors: 6 for \$3.00; 12 for \$5.85.

OUTSTANDING PERENNIALS

*Suitable for rock gardens.

***ALYSSUM saxatile compactum** (Basket of Gold). Bright yellow. Early spring. 1 ft. 45c each; 3 for \$1.20; 12 for \$4.50.

***BLEEDING HEART** (Dicentra spectabilis). Old-fashioned flower with long racemes of heart-shaped pink flowers in May and June. 2 ft. 75c each; 3 for \$2.00.

***COLUMBINE**, (Mrs. Scott Elliott's Hybrids (Aquilegia). Choice old English strain of one of the best loved perennials. Pastel shades of rose, blue and yellow, in many delightful combinations. Mixed. May and June. 2 ft. 45c each; 3 for \$1.20; 12 for \$4.50.

PERENNIALS—Continued

DELPHINIUM, Giant Pacific Hybrids (Perennial Larkspur). A most beautiful perennial in the garden and one of the best cut flowers. Tall-growing. The huge florets are beautifully spaced on well branched, strong spikes as much as 3 ft. Various shades of blue blending into delicate pink. At its best in early June; some flowers throughout summer. **60c each; 3 for \$1.60; 12 for \$6.00.**

DELPHINIUM, Improved Belladonna. Lovely light blue. Free-flowering. 3 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

***DIANTHUS deltoides** (Maiden Pink). Masses of small pink flowers in May and June. 1 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

GAILLARDIA grandiflora. Numerous shades of orange, red and yellow. **45c each; 3 for \$1.20; 12 for \$4.50.**

Gypsophila paniculata (Baby's Breath). Minute, starry, white flowers borne in profusion on massive, spreading plant with small, thread-like stems. Used in cut flower arrangements. Blooms for long period during summer. 3 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

HIBISCUS (Mallow Marvels). Hollyhock-like, single flowers appearing in mid-summer. Mixed colors. 4 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

HOLLYHOCKS. Well-known old-time flower. Mixed colors. July and August. 5 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

***LILY-OF-THE-VALLEY** (Convallaria majalis). Old favorite garden plant. Dainty, white, bell-shaped flowers in May. Very fragrant. Can be grown in considerable shade. 6 to 10 in. **45c each; 3 for \$1.20; 12 for \$4.50.**

***LINUM perenne** (Flax). Soft, feathery foliage, clear blue flowers in early spring. Useful garden plant, well suited to rock gardens and borders. 2 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

***SAPONARIA ocyroides splendens** (Soapwort). Dense masses of pink flowers in late spring, adding color to the rock garden or border planting. **45c each; 3 for \$1.20; 12 for \$4.50.**

***SEDUM** (Stonecrop). Hardy, easily grown ground cover plants. Thrive in both shade and sunlight. Used for covering shady spots where grass will not succeed, also in rock gardens and as a border plant. Assorted varieties. **3 for \$1.00; 12 for \$3.00.**

SHASTA DAISY (Chrysanthemum maximum). Large white blossoms in June, July and August. 2 ft. **45c each; 3 for \$1.20; 12 for \$4.50.**

STOKESIA (Cornflower Aster). Immense light blue flowers. Vigorous grower. Free bloomer. September. 12-18 in. **45c each; 3 for \$1.20; 12 for \$4.50.**

SWEET WILLIAM (Dianthus barbatus). Old-fashioned garden favorite. Mixed colors. **45c each; 3 for \$1.20; 12 for \$4.50.**

***THYMUS serpyllum** (Thyme). Creeping ground cover plant. Purplish pink flowers in fall. Used in wall plantings, rock gardens and low borders. **3 for \$1.00; 12 for \$3.00.**

TRITOMA (Red Hot Poker). Rich orange-scarlet flower heads on 3- to 4-ft. spikes. June and July. **45c each; 3 for \$1.20; 12 for \$4.50.**

***VERBENA.** See page 43 for illustrations, descriptions and prices.

VERONICA longifolia. Long spikes of deep blue. July and August. 30 in. **45c each; 3 for \$1.20; 12 for \$4.50.**

*Indicates suitable for rock gardens.

HARDY PHLOX

Generally considered one of the best perennials. Bloom over extended period through midsummer.

OUTSTANDING STANDARD PHLOX

American Beauty. True American Beauty color. Large panicles.

Charles Curtis. Magnificent Phlox of brilliant sunset-red.

Chieftain. Clear ruby-red without shadings.

Eva Foerster. Large flowers and trusses of salmon-rose; white eye.

Lillian. Delicate cameo-pink with faint blue shadings at center.

World Peace. Pure white. Strong, free bloomer.

Prices on Outstanding Phlox: **60c each; 3 of one variety for \$1.60; 12 for \$6.00, your choice of varieties.**

PHLOX SUBULATA (Creeping Phlox). See page 43 for illustration, descriptions and prices.

"Consider The Lilies" Hardy Lilies

Madonna Lily (Candidum). One of the most beautiful pure white Lilies. June. Offered for fall delivery only. **3 for \$1.60; 12 for \$6.00.**

Magic Lily (Lycoris squamigera). Hardy Amaryllis. Green foliage, which disappears in July, followed a month later, as if by magic, by flower stalks springing from the ground to a height of 2 to 3 ft., developing large, Lily-shaped, delicate lilac-pink flowers 4 in. across appearing in clusters of 8 to 12. **75c each; 3 for \$2.00; 12 for \$7.50.**

Regal Lily

Regal Lily (Regale). White flowers with pink and yellow throat. Very fragrant. Most popular hardy garden Lily; also beautiful and lasting as a cut flower. June. **3 for \$1.35; 12 for \$4.50.**

HEMEROCALLIS (Day Lilies)

Bay State. Brilliant, glistening deep yellow. Late June. 4 ft.

Lemona (Lemon Day Lily). Large lemon-yellow. June. 4 ft.

Margaret Perry. Bright orange-scarlet. July. 3½ ft.

Day Lily Prices: **3 of one variety for \$1.60; 12 for \$6.00, your choice of varieties.**

Vines and Ground Cover Plants

HARDY CLIMBING VINES

For Decoration, Shade and Screens

Clematis Jackmani

BOSTON IVY (*Ampelopsis veitchii*). Most popular deciduous climber. Clings to smooth surface walls. Often planted as a support to Evergreen English Ivy, the two climbing to great heights. 2-yr., \$1.00 each; 6 for \$5.50; 12 for \$10.00.

CLEMATIS, Large Flowering. No other climbing vine equals in attractiveness the beautiful Large Flowering Clematis. Profusion of bloom in May, followed with some blossoms throughout summer. Excellent for porch and trellis planting.

Henryi. Large, single white.
Jackmani. Most popular large purple.
Mme. Andre. Large, violet-red.

Prices on Clematis Henryi, Jackmani and Mme. Andre: 2-yr., \$1.50 each. One each—total 3 vines—\$4.20.

CLEMATIS paniculata. The finest small-flowering Clematis. In midsummer entire vine is clothed in a mass of white bloom. 2-yr., \$1.00 each; 6 for \$5.50; 12 for \$10.00.

ENGLISH IVY (*Hedera helix*). Broad, glossy evergreen foliage. Used as a ground cover in low, shady places as well as a border to walks and garden paths. Can be planted for covering walls, but should be used in connection with Boston Ivy for climbing smooth walls. 4-in. pots, \$1.00 each; 6 for \$5.50. 12 for \$10.00. 2 1/4-in. pots, 50c each. 6 for \$2.70; 12 for \$5.00.

KUDZU VINE (*Pueraria*). One of the fastest growers of all vines. Useful for covering steep banks, unsightly buildings or for making quick screen or shade. 3 for \$1.80; 6 for \$3.50; 12 for \$6.00.

WISTARIA. Possibly most spectacular of all flowering vines. Vigorous grower, requiring considerable space and support. We offer the following types: **Sinensis.** Old favorite Chinese Wistaria. Long, pendulous clusters of blue flowers in May. 2-yr., \$1.50 each.

Sinensis alba. Fragrant white. May. 8-yr., Balled and Burlapped, Blooming Size Specimens, \$10.00 each.

Multijuga rosea. Long clustered, clear pink. 8-yr., Balled and Burlapped, Blooming Size Specimens, \$10.00 each.

GROUND COVER PLANTS

HONEYSUCKLE, Hall's (*Lonicera japonica haliana*). White and yellow fragrant flowers produced in abundance in early spring and occasionally throughout summer. Used chiefly for holding steep banks, as a ground cover in shady locations, and may also be used as a climber. Bedding size, 12 for \$2.50; 100 for \$15.00. 3-yr., 50c each; 12 for \$5.00; 100 for \$35.00.

PACHYSANDRA terminalis (Spurge). One of the best ground cover plants, particularly valuable in shade. Averages 6 to 8 in. in height and branches freely, forming dense mat. Its thick foliage is practically evergreen. 2-yr., 12 for \$3.50; 100 for \$25.00.

PURPLE WINTERCREEPER (*Euonymus radicans coloratus*). Evergreen. Excellent ground cover for shady locations. The long, narrow leaves are rosy purple underneath. 2-yr., 60c each; 6 for \$3.30; 12 for \$6.00.

VINCA minor (Periwinkle). Old favorite trailing plant. Blue flowers, dark green leaves. Used as a ground cover under trees, where grass fails, on steep banks, and as a border for garden paths. Bedding Size, 12 for \$2.50; 100 for \$15.00. Clumps, 50c each; 12 for \$5.00; 100 for \$35.00. 2 1/4-in. pots, 12 for \$3.50; 100 for \$25.00.

varieties.

Spic and
Span

To cover and hold banks too steep for mowing and for covering barren spots too shady for lawn grass.

EVERGREEN BITTERSWEET (*Euonymus radicans vegetus*). Dense, evergreen foliage. Clings readily. Showy, orange berries in autumn. Does well in shade or sunlight. 2-yr., 60c each; 6 for \$3.30; 12 for \$6.00. 4-yr., \$1.00 each.

EUONYMUS radicans minimus (Baby Wintercreeper). Very small, dark green, dense foliage. Clings to almost any surface. Valuable in the rock garden or shady places in the garden where an evergreen ground cover of delicate appearance is needed. 3-in. pots, 3 for \$1.80; 12 for \$6.00.

GERMANDER (*Teucrium chamaedrys*). Low, shrub-like plant sometimes listed as a perennial. Used as a ground and bank cover plant and in the rock garden. Rosy purple flowers; bluish tinged evergreen foliage. 2-yr., 60c each; 6 for \$3.30; 12 for \$6.00.

Long Spiked GLADIOLUS

For Masses of Color

Sold for spring delivery only.

You can enjoy Gladiolus from your garden from June until frost by making plantings each two weeks from early April until mid-July.

Burma. Ruffled deep rose-red.

Elizabeth the Queen. Large ruffled pink-lavender.

Florence Nightingale. Ruffled glistening white.

Hopman's Glory. Lovely deep yellow.

Picardy. Well-known apricot-salmon. Fine for cutting.

Purple Supreme. Deep purple with light edging on petals.

Red Charm. Bright red. Popular for cutting.

Snow Princess. Very fine creamy white.

Spic and Span. Tall, ruffled deep pink.

Spotlight. Medium yellow with scarlet sparks on throat.

Valeria. Very large orange-scarlet.

Yellow Herald. Rich yellow, slightly ruffled.
